

THE BISMARCK TRIBUNE

CHIEF TABERT WITNESS DIES

DEPOSIT HELD OUTSIDE STATE GUARANTY ACT

Payment of Bonus Making Interest More Than 6 Per Cent Invalid, Judge Rules

IN McQUERRY CASE

Plaintiff Sought to Recover From Guaranty of Bank Deposits Fund

Payment of a bonus on a deposit in the Security State Bank of New England now closed, which resulted in an interest rate of more than 6 percent, estops E. McQuerry of Des Moines from recovering from the Depositors Guaranty Fund Commission under the bank deposits guaranty act. Judge Jansons of district court decided today.

The decision sustains action of the Depositors Guaranty Fund Commission in rejecting the deposit and contents of C. L. Young of Bismarck, attorney for the commission. The last public report of the Guaranty Fund Commission showed it had rejected \$2,884,890.20 of deposits in state banks now closed as not being covered by the Guaranty of Deposits act, one of the reasons being that more than 6 percent interest was paid on some deposits.

Judge Jansons' memorandum opinion said the evidence showed that McQuerry, living in Barnes county, answered an advertisement of the Security State Bank of New England that it would pay 6 percent on deposits. The bank offered to take Liberty Bonds and exchange certificates of deposit. He sent \$5,000 which on Oct. 5, 1920 was equivalent to \$5,500 of Liberty Bonds, was credited by the bank with a deposit of \$5,500 with interest at 5 percent.

Court's View

The court said the evidence shows that the Guaranty Fund Commission had authorized the banks in Hettinger county to pay six percent the maximum allowed by the law. A \$500.00 bonus on a \$5,000.00 deposit, with five percent on \$5,500.00 amounts to almost nine percent interest annual.

"The question before the court is whether or not such a deposit, if it is a deposit, is protected by this act. It may be conceded that the plaintiff acted in good faith in answering the advertisement scattered broadcast throughout the state and that banks generally were advertising the fact that deposits were guaranteed by the state.

"It is clear, nevertheless, that the purpose of the transaction was to pay a bonus and the payment of a bonus was, in my opinion a defiance of the statute. The money that plaintiff placed in the bank with the express understanding that he should receive more than six percent interest, by whatever name it may have been called, is, in my opinion, not protected by the act. It is not the intention of the legislature, nor does a fair interpretation of the act convince me that this transaction, whether it be called a deposit or a loan, is protected by the Bank Guaranty Fund. By violation of the provisions of the act plaintiff is in my opinion estopped from participating in the Bank Guaranty Fund."

TABERT CASE BRINGS THANKS

Florida Organizations Glad of Action of North Dakota

Thanks to North Dakota for instituting the Martin Tabert investigation in Florida is expressed by the Kiwanis club of Sarasota, Florida, a letter received at the office of Governor Nestos.

The letter authorized by the club says "we wish to extend our sincere thanks to the government of the state of North Dakota and the prosecuting attorney who so courageously took hold of the Martin Tabert case and brought the matter to the attention of the world. Please be sure, however, that Florida yet remains the land of flowers, sunshine and beauty and is not the terrible hell that these 'whipping bosses' would like to see the world believe."

Opposition to the convict lease system and legislation to make impossible a repetition of the case of Martin Tabert, alleged to have been flogged to death in a prison camp, is demanded in a resolution of American Legion Post No. 14, St. Petersburg, Fla., a copy of which was received at the governor's office.

IN MINNEAPOLIS.

Selection of materials on which bids for clothing and other supplies for state institutions will be based, will be made by members of the Board of Administration in Minneapolis today. M. E. McIntyre, purchasing agent, accompanied the board on the trip.

BEAUTIES OF THREE NATIONS

Miss Gabrielle Thieudard, 20 (left), has just been elected the most beautiful lilette in Paris in the annual ceremony of students. Countess de Filippi (center) won the recent beauty contest on the Italian Riviera. And she refused to go into the movies! Vera Olcott won a beauty contest in which thousands from all parts of England participated and is now starring on the stage in Paris.

OIL ENGINES FOR POWER WILL EFFECT SAVING

Cost of City to Pump Water Under Plan Placed at \$3,000 Yearly

UTILITY CHARGE \$15,000 Agitation Under Way to Use Excess Power For Street Lights and Public Buildings

For the past thirty days or so a good many of our readers have had under consideration the proposed power plant in connection with the new water system proposed for our city. The city council has recently revised the specifications in their call for bids in such a way that equipment will be offered when the bids are opened on the 28th day of May to provide a complete and partially independent source of power for the plant. On May 14th the voters of our city will be asked to decide whether or not a bond will be issued for the payment of this equipment and we feel that the citizen taxpayers of our city should be rightfully informed as to what the city commission will have before them for consideration and what the city will be able to accomplish with the new power plant when once installed.

Edwards, Morris & Co., through their local representative, have met with our city commission on several occasions and working with the engineers in charge have outlined equipment in the way of Semi-Deisel type oil burning engines as a source of power for the plant and have submitted a set of specifications which the commission has now included in their call for bids. On May 28th the commission must decide whether or not a power plant will be installed in addition to the filtering plant or a complete electrical driven outfit be installed and use our own local power plant to secure electric energy.

Company Statements

The above company made several statements in support of their equipment outlining where and in what way the city can install oil engines and generate their own current and effect an enormous saving over the purchase of the same amount of current from our local electric plant. The equipment called for in the former specifications for the pumping station was to consist of five pumping units, three on the high lift from the plant to the reservoir and two on the low lift from the river to the plant. Each of these pumping units was to be directly connected to motors as well as auxiliary gasoline engines. However only two of these pumping units would be in daily use one on the low lift and one on the high lift. The balance of the equipment was to be installed as additional equipment to maintain a high pressure for fire protection.

Daily Consumption

The average daily consumption of water in Bismarck for the past year has been something less than 800,000 gallons and it will require about a seven hour run with this equipment daily to lift this water. This will mean that one 30 HP and one 125 HP motor will have to operate about seven hours each day. With our present power rates which are on a sliding scale from 6c down to 3c this will cost approximately \$27.75 per seven hours run. In addition to this we must pay a minimum charge of one dollar per horse power per month or reserve units which amount to 415 HP. This will bring our yearly pumping power bill to a trifle more than \$15,000.00. To

(Continued on Page 8)

BIDS ON NEW PLANT WILL BE ON UNIT PLAN SO OLD SYSTEM MAY BE UTILIZED

Editors Note:—This is the third of a series of articles by City Engineer Atkinson upon the water issue and presents the problem from the viewpoint of a majority of the members of the city commission.

By City Engineer Atkinson
The Bismarck Water Supply Company has offered to sell its plant to the city for \$302,000. The city commissioners in December 1922 made an offer of \$305,000 to the company for its plant.

This offer was rejected by the company and the offer has since been withdrawn by the City Commissioners. Inasmuch as the Board of City Commissioners are to take bids on an entirely new system, and for the further reason that the bids for this new system are to be taken on a unit basis, i. e., each item of work such as cast iron pipes, the laying of the same, each cubic yard of concrete each pound of reinforcing steel each hydrant and each valve etc. and inasmuch as we know how many units of each kind there are in the present system we believe we will be able to determine the actual value to city of all that part of the present system which we can use as a part of a complete system. The depreciation factor of course will be applied to the present plant in order to determine its actual value.

Filteration Plant

If the present plant is taken over it will be necessary to construct the filteration plant building heretofore described together with the pumping machinery, filters, filter and settling basins. It will also be necessary to add a sixteen inch supply main from the reservoirs to the city and add approximately seven and one-half miles of mains to the distribution system, tying up the "dead ends" and making needed extensions that the taxpayers have been asking for during the last eight years. It will also be necessary to add 81 new hydrants and repair all the present hydrants, replace many of the gate valves and make a general overhauling of the present system as the loss from leaks in the system is now over 20 percent of the total water pumped.

Mains Under Paving

Whether a complete new system

WHEAT GROWERS DIRECTORS TO MEET MAY 8

Grand Forks, N. D., May 7.—A meeting of the board of directors of the North Dakota Wheat Growers association will be held Tuesday, May 8, according to an announcement made by A. J. Scott, secretary.

At that time the state will be re-districted, preparatory to the annual election to be held in July. The state will be divided into twenty districts, according to wheat acreage, one director to represent each district. Two trustees to represent the North Dakota Wheat Growers on the board of the American Wheat Growers, Inc., national sales agency will also be named at this meeting.

On May 14, the organization committee and the board of trustees of the American Wheat Growers, Inc., will be held in the Curtis hotel, Minneapolis, to consider matters pertaining to the operation of the national sales agency.

KING GEORGE VISITS ITALY

Rome, May 7.—King George and Queen Mary of England arrived at Rome at 8 o'clock this morning on their long-planned visit to Italy.

HALF OF FARGO FIREMEN HURT IN EXPLOSION

Blast Which Followed Fire in Liberty Theater Building Results Seriously

LOSS PUT AT \$50,000

Back Draft Cause by Door Opening Damages Buildings Across Street

Fargo, May 7.—With a large percentage of Fargo firemen recuperating from cuts and burns received in a fire and explosion at the Liberty theater early Sunday morning the department is filling its ranks with volunteers and will be assisted by the Moorhead, Minnesota, department with emergency cases.

Nine, or nearly one-half, the local fire-fighting forces, received severe injuries which will render them unfit for service for several days at least and in some cases several received burns which will cause them to be laid up for weeks.

Those more seriously injured were reported to be recovering as rapidly as can be expected. The fire is believed to have been caused by defective electric wiring.

When the firemen opened a rear door of the building an element known as back draft caused an explosion which blew out the front of the structure and damaged buildings on the other side of the street.

Condition of Chief Sutherland was reported favorable today. Loss now is estimated at close to \$50,000. The building was completely gutted.

VETERAN OF CIVIL WAR'S BATTLE DIES

Franklin Westmiller, 82, Had Participated in Hardest Engagements of War

FUNERAL TOMORROW

Franklin Westmiller, 82, Civil War veteran and resident of this vicinity for many years, died at the home of his daughter, Mrs. J. Champagne on 314 Eighth street So., Saturday evening at 6 o'clock after an illness of two weeks with myxo-carditis.

Mr. Westmiller enlisted for service at the beginning of the Civil War at Heart's Island, New York, March 17, 1862, serving for three years under Capt. W. Renwick Smedberg, in Company F, first battalion of the fourteenth regiment of infantry. During the war he saw service in all the important engagements, taking part in the battle of Bull Run and seeing constant fighting during several days in the Wilderness campaign.

Mr. Westmiller narrowly escaped death at a battle in the Wilderness when, deafened by the roar of cannons, he did not hear the order to retreat. Although he was flag bearer and all his companions were killed since they served as conspicuous targets of the enemy forces he finally retreated without even receiving a wound.

The deceased settled in North Dakota thirty-two years ago and has resided since then in this vicinity. He moved to Bismarck last October from Flasher. For nine years he resided on a farm near Shields, where he was well known as a progressive farmer of that vicinity.

He was a member of the I. O. O. F., Belden Lodge, 155, Shields, N. D., for 28 years, and a member of the W. T. Sherman Post No. 10, Mandan.

The deceased is survived by his wife, Mrs. Rachel Westmiller, four daughters, Mrs. M. E. Hibbs, and Mrs. J. Champagne of Bismarck, Miss Maggie Westmiller of Davenport, Ia., Mrs. Thessa Koch, of Kelsey, Pa., and one son, Franklin Westmiller of Washburn. During his entire illness the deceased was attended by his grandson, William Cook, of Pennsylvania.

Funeral services will be held for many years, died at the home of tomorrow morning at 8:15 o'clock from the Pro-Cathedral with Rev. Father Sing officiating. Acting as honorary pallbearers will be a group of old soldiers, Steve Welch, Pat McHugh, Tom McGowan, Wesley Baker, F. W. Hibbs, J. W. Kiser and Mr. Kuntz. The American Legion and the I. O. O. F. will have joint charge of the funeral services. Company A will furnish a firing squad. Interment will take place in St. Mary's cemetery.

The cortege will assemble at Webb Bros. undertaking parlors at 7:45 a. m. and proceed from there for the church.

London imports \$6,000,000 worth of apples every year.

There are 14,438,341 Roman Catholics in the British Empire.

ONE AMERICAN KILLED, OTHERS HELD CAPTIVE WHEN CHINESE BANDITS MAKE RAID ON TRAIN

COVER PLANTS TONIGHT; COLD WEATHER AHEAD

Cover year early planted gardens and flowers tonight.

This is the advice of the weather bureau. Indications were early today that the temperature tonight would be below freezing, probably as low as 20 or 25 above zero.

The driving snow which fell here during the morning, and melted almost as it fell, was general from Williston to Bismarck in the northern part of the state, and west of Bismarck to the Montana line, according to weather bureau reports. Private advice from Jamestown said it was snowing there this morning, and it is expected the snow would reach the eastern half of the state late today.

Rain fell in many places yesterday. There was a particularly hard rain around Dawson, Kidder county.

GOVERNOR IS BACK AT DESK FACING GRIND

Bond Sale and Board Meetings on Program for the Next Few Weeks

IS MUCH IMPROVED Finds Martin Tabert Case Probe Is Backed by People of Many States

Preparations for sale soon of additional rural credit bonds will be made this week by the industrial commission, Governor R. A. Nestos said on returning to his office after spending several weeks in a sanitarium at Battle Creek, Michigan. Some mill and elevator bonds also are expected to be offered for sale.

Numerous board meetings face the governor as he returned to his office much refreshed from his stay at Battle Creek, during which he adhered to strict dietary orders and lost considerable weight. The trip was made by the governor because of indignation from which he has suffered for more than a year. He has suffered pain practically every day he has been in the Governor's chair but had not been able previously to leave the office long enough to take the rest and treatment ordered by doctors.

During his stay at Battle Creek Governor Nestos accepted several invitations to make short talks at Battle Creek, Kalamazoo and Ann Arbor, before organizations, and utilized the opportunity, he said, to remove unfavorable impressions he will "found" existing toward North Dakota. The speeches were directed particularly toward urging North Dakota and North Dakota securities as safe investments for people of those cities, who are heavy purchasers of securities.

The animus toward the state arising from the Nonpartisan League ascendancy, which caused many of them to withdraw investments from the state still persisted to some degree, the governor said, expressing belief, however, that his statements boosting North Dakota had been accepted as true by his listeners.

The Martin Tabert case brought many compliments to North Dakota not only from people in the sanitarium from every state in the union but from business men and others he met in other Michigan cities, the governor said. The case was being followed with keen interest, he said and many expressed their thanks to North Dakota people for instituting the inquiry into the Cavalier County boy's death in a Florida convict camp.

After spending a month with the people of Michigan, Indiana and Ohio the governor said he was more convinced than ever that concerted effort ought to be made to increase poultry, garden small fruit and berry productivity on North Dakota farms, development in this respect has proved of great benefit financially and in promoting health and happiness, he said.

With the exception of keeping a promise to deliver a speech at a Grand Forks celebration on May 17 the governor expects to be kept close to his office for some time.

London's annual "dish of meat is about 400,000 tons.

POISONED, HE CLAIMS, WHILE HE IS DYING

Authorities Dispute Statement Saying That Apoplexy Caused Death

ON WAY TO TESTIFY

Called Before Federal Grand Jury to Testify in Regard To Peonage Cases

Tallahassee, Fla., May 7.—Death of Jerry Poppell, chief witness for the prosecution in a peonage case against two Leon county officers that came as a result of an investigation into the demise of Martin Tabert, North Dakota prisoner, in a private convict camp, held the attention of authorities today.

Poppell, formerly a jailer at Tallahassee, died at Quincy, Florida, last night as he was enroute to Pensacola, to testify before a federal grand jury.

Although Mrs. Poppell, who was with her husband, said her husband died of a sudden heart attack, death and muttered he had been poisoned the attending physician said the former jailer died of apoplexy.

Poppell had been suffering from a mental ailment for several months. Named Sheriff.

While appearing before a legislative committee investigating Tabert's death Poppell admitted his habit of drinking of liquor and in that connection mentioned the name of Sheriff Jones and Judge Willis. Poppell testified the sheriff had judge convinced to profit in the arrest and conviction of vagrants—who, when sentenced, were put to work in the convict camps.

Sheriff Jones told the committee he received \$20 for each man sent there.

Mrs. Poppell said her husband became ill near Quincy, falling off the running board of their automobile. Poppell's death did not become known until yesterday when Mrs. Poppell arrived.

URGE HIGHER REQUIREMENTS FOR TEACHERS

Normal School Presidents Find Curriculum About the Same

Stiffening of requirements for teachers' certificates in North Dakota is urged by the Normal School Presidents Council, which took questions of uniformity of curriculum and other matters affecting state normal schools at the request of the board of administration. Resolutions adopted by the council say: "Since one year is too short a time in which to make professional teachers of high school graduates, since any attempt to prepare high school graduates in one year necessarily breaks the unity of a two year curriculum which should be required for a professional certificate we recommend: "That the only second grade elementary certificates be given for high school graduation.

"That the first grade elementary certificate be given for the completion of one year of work in state teacher training institutions, for the completion of which a certificate given by the institution, and "That a diploma and a second grade professional certificate be given for the completion of two years of work beyond high school graduation as heretofore.

"That the board of administration request the introduction and enactment of legislation required to make these regulations legal."

The council also expressed the opinion that all state normals teach about the same things, stating "The diversity in the curricula is more apparent than real and the impression that diversity exists arises from differences in terminology and from different forms of tabulation rather than from differences in content."

The council is called to meet again in Bismarck May 15.

SIX MEMBERS OF FAMILY OF MINOT MAN DIE

Minot, May 7.—Dr. E. G. Demore of this city early this morning received a telegram notifying him of the accidental death last night of Fresno, California, of his father, mother, a sister, two uncles and an aunt, who were killed in an automobile when struck by a train at a grade crossing. The bodies will be shipped to Iowa for burial.

PREUS TO BE U. S. SENATOR

Minneapolis, May 7.—Governor J. A. O. Prouss will resign this week to be appointed U. S. Senator by Louis Collins, Lieutenant-governor who will ascend to the Governor's chair, according to the Minneapolis Journal. Governor Preus will fill out the unexpired term of the late Knute Nelson. He had been regarded as a candidate for the position in 1924.

GOPHER ORE TAX IS VALID

Washington, May 7.—Minnesota's occupation tax on the valuation of iron ore mined or produced in that state was declared constitutional and valid today by the supreme court.

DISAPPROVE GERMAN OFFER

London, May 7.—Great Britain will dispatch a note to Germany within 48 hours expressing disapproval of the latest German reparations and urging Germany to present a more practical and more liberal solution of the problem.

CHIEF TABERT WITNESS DIES

DEPOSIT HELD OUTSIDE STATE GUARANTY ACT

Payment of Bonus Making Interest More Than 6 Per Cent Invalid, Judge Rules

IN McQUERRY CASE

Plaintiff Sought to Recover From Guaranty of Bank Deposits Fund

Payment of a bonus on a deposit in the Security State Bank of New England now closed, which resulted in an interest rate of more than 6 percent, estops E. McQuerry of Dacey from recovering from the Depositors Guaranty Fund Commission under the bank deposits guaranty act Judge Fred Jansons of district court decided today.

The decision sustains action of the Depositors Guaranty Fund Commission in rejecting the deposit and contentions of C. L. Young of Bismarck, attorney for the commission. The last public report of the Guaranty Fund Commission showed it had rejected \$2,684,890.20 of deposits in state banks now closed as not being covered by the Guaranty of Deposits act, one of the reasons being that more than 6 percent interest was paid on some deposits.

Judge Jansons' memorandum opinion said the evidence showed that McQuerry, living in Barnes county, answered an advertisement of the Security State Bank of New England that it would pay 6 percent on deposits. The bank offered to take Liberty Bonds and exchange certificates of deposit. He sent \$5,000 which on Oct. 5, 1920 was equivalent to \$5,500 of Liberty Bonds, was credited by the bank with a deposit of \$5,500 with interest at 5 percent.

Court's View

"The evidence shows that the Guaranty Fund Commission had authorized the banks in Hettinger county to pay six percent the maximum allowed by the law. A \$500.00 bonus on a \$5,000.00 deposit, with five percent on \$5,500.00 amounts to almost nine percent interest annually."

"The question before the court is whether or not such a deposit, if it is a deposit, is protected by this act. It may be conceded that the plaintiff acted in good faith in answering the advertisement scattered broadcast throughout the state and that banks generally were advertising the fact that deposits were guaranteed by the state."

"It is clear, nevertheless, that the purpose of the transaction was to pay a bonus and the payment of a bonus was, in my opinion a defiance of the statute. The money that plaintiff placed in the bank with the express understanding that he should receive more than six percent interest, by whatever name it may have been called, is, in my opinion not protected by the act. I do not think it was the intention of the legislature, nor does a fair interpretation of the act convince me that this transaction, whether it be called a deposit or a loan, is protected by the Bank Guaranty Fund. By violation of the provisions of the act plaintiff is in my opinion estopped from participating in the Bank Guaranty Fund."

TABERT CASE BRINGS THANKS

Florida Organizations Glad of Action of North Dakota

Thanks to North Dakota for instituting the Martin Tabert investigation in Florida is expressed by the Kiwanis club of Sarasota, Florida, in a letter received at the office of Governor Nestos.

The letter authorized by the club says "We wish to extend our sincere thanks to the government of the state of North Dakota and the prosecuting attorney who so courageously took hold of the Martin Tabert case and brought the matter to the attention of the world. Please be sure, however, that Florida yet remains the land of flowers, sunshine and beauty and is not the terrible hell that these 'whipping bosses' would make the world believe."

Opposition to the convict lease system and legislation to make impossible a repetition of the case of Martin Tabert, alleged to have been flogged to death in a prison camp, is demanded in a resolution of American Legion Post No. 14, St. Petersburg, Fla., a copy of which was received at the governor's office.

IN MINNEAPOLIS

Selection of materials on which bids for clothing and other supplies for state institutions will be based, will be made by members of the Board of Administration in Minneapolis today. M. E. McIntyre, purchasing agent, accompanied the board on the trip.

BEAUTIES OF THREE NATIONS

Mlle. Gabrielle Thénard, 20 (left), has just been elected the most beautiful lisette in Paris in the annual ceremony of students. Countess de Filippi (center) won the recent beauty contest on the Italian Riviera. And she refused to go into the movies! Vera Olcott won a beauty contest in which thousands from all parts of England participated and is now starring on the stage in Paris.

OIL ENGINES FOR POWER WILL EFFECT SAVING

Cost of City to Pump Water Under Plan Placed at \$3,000 Yearly

UTILITY CHARGE \$15,000

Agitation Under Way to Use Excess Power For Street Lights and Public Buildings

For the past thirty days or so a good many of our readers have had under consideration the proposed power plant in connection with the new water system proposed for our city. The city council has recently revised the specifications in their call for bids in such a way that equipment will be offered when the bids are opened on the 28th day of May to provide a complete and partially independent source of power for the plant. On May 14th the voters of our city will be asked to decide whether or not a bond will be issued for the payment of this equipment and we feel that the citizen taxpayers of our city should be rightfully informed as to what the city commission will have before them for consideration and what the city will be able to accomplish with the new power plant when once installed.

Fairbanks Morse & Co., through their local representative, have met with our city commission on several occasions and working with the engineers in charge have outlined equipment in the way of Semi-Deisel type oil burning engines as a source of power for the plant and have submitted a set of specifications which the commission has now included in their call for bids. On May 28th the commission must decide whether or not a power plant will be installed in addition to the filtering plant or a complete electrical driven outfit be installed and use our own local power plant to secure electric energy.

Company Statements

The above company made several statements in support of their equipment when speaking to the commission outlining where and in what way the city can install oil engines and generate their own current and effect an enormous saving over the purchase of the same amount of current from our local electric plant. The equipment called for in the former specifications for the pumping station was to consist of five pumping units, three on the high lift from the plant to the reservoir and two on the low lift from the river to the plant. Each of these pumping units was to be directly connected to motors as well as auxiliary gasoline engines. However only two of these pumping units would be in daily use one on the low lift and one on the high lift. The balance of the equipment was to be installed as additional equipment to maintain a high pressure for fire protection.

Daily Consumption

The average daily consumption of water in Bismarck for the past year has been something less than 600,000 gallons and it will require about a seven hour run with this equipment daily to lift this water. This will mean that one 30 HP and one 125 HP motor will have to operate about seven hours each day. With our present power rates which are on a sliding scale from 6c down to 3c this will cost approximately \$27.75 per seven hours run. In addition to this we must pay a minimum charge of one dollar per horse power per month or reserve units which amount to 415 HP. This will bring our yearly pumping power bill to a trifle more than \$15,000.00. To (Continued on Page 6)

BIDS ON NEW PLANT WILL BE ON UNIT PLAN SO OLD SYSTEM MAY BE UTILIZED

Editors Note:—This is the third of a series of articles by City Engineer Atkinson upon the water issue and presents the problem from the viewpoint of a majority of the members of the city commission.

By City Engineer Atkinson
The Bismarck Water Supply Company has offered to sell its plant to the city for \$502,000. The city commissioners in December, 1922 made an offer of \$265,000 to the company for its plant.

This offer was rejected by the company and the offer has since been withdrawn by the City Commissioners. Inasmuch as the Board of City Commissioners are to take bids on an entirely new system, and for the further reason that the bids for this new system are to be taken on a unit basis, i. e., each item of work such as cast iron pipes, the laying of the same, each cubic yard of concrete each pound of reinforcing steel each hydrant and each valve etc., and inasmuch as we know how many units of each kind there are in the present system we believe we will be able to determine the actual value to city of all that part of the present system which we can use as a part of a complete system. The depreciation factor of course will be applied to the present plant in order to determine its actual value.

Filteration Plant

If the present plant is taken over it will be necessary to construct the filteration plant building heretofore described together with the pumping machinery, filters, filter and settling basins, will also be necessary to add a siphon inch supply main from the reservoirs to the city and add approximately seven and one-half miles of mains to the distribution system, tying up the "dead ends" and making needed extensions that the taxpayers have been asking for during the last eight years. It will also be necessary to add 61 new hydrants and repair all the present hydrants, replace many of the gate valves and make a general overhauling of the present system as the loss from leaks in the system is now over 30 percent of the total water pumped.

Mains Under Paving

Whether a complete new system

WHEAT GROWERS DIRECTORS TO MEET MAY 8

Grand Forks, N. D., May 7.—A meeting of the board of directors of the North Dakota Wheat Growers association will be held Tuesday, May 8, according to an announcement made by A. J. Scott, secretary.

At that time the state will be re-districted, preparatory to the annual election to be held in July. The state will be divided into twenty districts, according to wheat acreage, one director to represent each district. Two trustees to represent the North Dakota Wheat Growers on the board of the American Wheat Growers, Inc., national sales agency will also be named at this meeting.

On May 14, the organization committee and the board of trustees of the American Wheat Growers, Inc., will be held in the Curtis hotel, Minneapolis, to consider matters pertaining to the operation of the national sales agency.

KING GEORGE VISITS ITALY

Rome, May 7.—King George and Queen Mary of England arrived at Rome at 8 o'clock this morning on their long-planned visit to Italy.

HALF OF FARGO FIREMEN HURT IN EXPLOSION

Blast Which Followed Fire in Liberty Theater Building Results Seriously

LOSS PUT AT \$50,000

Back Draft Cause by Door Opening Damages Buildings Across Street

Fargo, May 7.—With a large percentage of Fargo firemen recuperating from cuts and burns received in a fire and explosion at the Liberty theater early Sunday morning the department is filling its ranks with volunteers and will be assisted by the Moorhead, Minnesota, department with emergency cases.

Nine, or nearly one-half, the local fire-fighting forces, received severe injuries which will render them unfit for service for several days at least and in some cases several received burns which will cause them to be laid up for weeks.

Those more seriously injured were reported to be recovering as rapidly as can be expected. The fire is believed to have been caused by defective electric wiring.

When the firemen opened a rear door of the building an element known as back draft caused an explosion which blew out the front of the structure and damaged buildings on the other side of the street.

Condition of Chief Sutherland was reported favorable today. Loss now is estimated at close to \$50,000. The building was completely gutted.

VETERAN OF CIVIL WAR'S BATTLE DIES

Franklin Westmiller, 82, Had Participated in Hardest Engagements of War

FUNERAL TOMORROW

Franklin Westmiller, 82, Civil War veteran and resident of this vicinity for many years, died at the home of his daughter, Mrs. J. Champagne on 314 Eighth street So., Saturday evening at 9 o'clock after an illness of two weeks with myocarditis.

Mr. Westmiller enlisted for service at the beginning of the Civil War at Heart's Island, New York, March 17, 1862, serving for three years under Capt. W. Renwick Smedberg, in Company F, first battalion of the fourteenth regiment of infantry.

During the war he saw service in all the important engagements, taking part in the battle of Bull Run and seeing constant fighting during seven days in the Wilderness campaign. Mr. Westmiller narrowly escaped death at a battle in the Wilderness when, deafened by the roar of cannons, he did not hear the order to retreat. Although he was flag bearer and all his companions were killed since they served as conspicuous targets of the enemy forces he finally retreated without even receiving a wound.

The deceased settled in North Dakota thirty-two years ago and has resided since then in this vicinity. He moved to Bismarck last October from Flasher. For nine years he resided on a farm near Shields, where he was well known as a progressive farmer of that vicinity.

He was a member of the I. O. O. F., Belden Lodge, 156, Shields, N. D., for 38 years, and a member of the W. T. Sherman Post No. 10, Mandan.

The deceased is survived by his wife, Mrs. Rachel Westmiller, four daughters, Mrs. M. E. Hibbs, and Mrs. J. Champagne of Bismarck, Miss Maggie Westmiller of Davenport, Ia., Mrs. Thresa Koch, of Kersey, Pa., and one son, Franklin Westmiller of Washburn. During his entire illness the deceased was attended by his grandson, William Cook of Pennsylvania.

Funeral services will be held tomorrow morning at 8:15 o'clock from the Pro-Cathedral with Rev. Father Slag officiating. Acting as honorary pallbearers will be a group of old soldiers, Steve Welch, Pat McHugh, Tom McGowan, Wesley Baker, F. W. Hibbs, J. W. Kiser and Mr. Kuntz. The American Legion and the I. O. O. F. will have joint charge of the funeral services. Company A will furnish a firing squad. Interment will take place in St. Mary's cemetery.

The cortege will assemble at Webb Bros. undertaking parlors at 7:45 a. m. and proceed from there for the church.

ONE AMERICAN KILLED, OTHERS HELD CAPTIVE WHEN CHINESE BANDITS MAKE RAID ON TRAIN

COVER PLANTS TONIGHT; COLD WEATHER AHEAD

Cover your early planted gardens and flowers tonight. This is the advice of the weather bureau. Indications were early today that the temperature tonight would be below freezing, probably as low as 26 or 28 above zero.

The driving snow which fell here during the morning, and melted almost as it fell, was general from Williston to Rugby in the northern part of the state, and west of Bismarck to the Montana line, according to weather bureau reports. Private advices from Jamestown said it was snowing there this morning, and it is expected the snow would reach the eastern half of the state late today.

Rain fell in many places yesterday. There was a particularly hard rain around Dawson, Kidder county.

GOVERNOR IS BACK AT DESK FACING GRIND

Bond Sale and Board Meetings on Program for the Next Few Weeks

IS MUCH IMPROVED

Finds Martin Tabert Case Probe Is Backed by People of Many States

Preparations for sale soon of additional rural credit bonds will be made this week by the industrial commission, Governor R. A. Nestos said on returning to his office after spending several weeks in a sanitarium at Battle Creek, Michigan. Some mill and elevator bonds also are expected to be offered for sale.

Numerous board meetings face the governor as he returned to his office much refreshed from his stay at Battle Creek, during which he adhered to strict dietary orders and lost considerable weight. The trip was made by the governor because of indigestion from which he has suffered for more than a year. He has suffered pain practically every day he has been in the Governor's chair but had not been able previously to leave the office long enough to take the rest and treatment ordered by doctors.

During his stay at Battle Creek Governor Nestos accepted several invitations to make short talks at Battle Creek, Kalamazoo and Ann Arbor before organizations, and utilized the opportunity, he said, to remove unfavorable impressions he still found existing toward North Dakota. The speeches were directed particularly toward urging North Dakota and North Dakota securities as safe investments for people of those cities, who are heavy purchasers of securities.

The animus toward the state arising from the Nonpartisan League ascendancy, which caused many of them to withdraw investments from the state still persisted to some degree, the governor said, expressing belief, however, that his statements boosting North Dakota had been accepted as true by his listeners.

Compliment State

The Martin Tabert case brought many compliments to North Dakota not only from people in the sanitarium from every state in the union but from business men and others he met in other Michigan cities. The governor said, "The case was being followed with keen interest, he said and many expressed their thanks to North Dakota people for instituting the inquiry into the Cavalier County boy's death in a Florida convict camp."

After spending a month with the people of Michigan, Indiana and Ohio the Governor said he was more convinced than ever that concerted effort ought to be made to increase poultry, garden small fruit and berry productivity on North Dakota farms, development in this respect has proved of great benefit financially and in promoting health and happiness, he said.

With the exception of keeping a promise to deliver a speech at a Grand Forks celebration on May 17 the governor expects to be kept close to his office for some time.

POISONED, HE CLAIMS, WHILE HE IS DYING

Authorities Dispute Statement Saying That Apoplexy Caused Death

ON WAY TO TESTIFY

Called Before Federal Grand Jury to Testify in Regard To Peonage Cases

Tallahassee, Fla., May 7.—Death of Jerry Poppell, chief witness for the prosecution in a peonage case against two Leon county officers that came as a result of an investigation into the demise of Martin Tabert, North Dakota prisoner, in a private convict camp, held the attention of authorities today.

Poppell, formerly a jailer at Tallahassee, died at Quincy, Florida, last night as he was enroute to Pensacola, to testify before a federal grand jury.

Although Mrs. Poppell, who was with her husband, said her husband during a lucid moment preceding his death had muttered he had been poisoned the attending physician said the former jailer died of apoplexy.

Poppell had been suffering from a mental ailment for several months.

Named Sheriff

While appearing before a legislative committee investigating Tabert's death Poppell admitted his habitual drinking of liquor and in that connection mentioned the name of Sheriff Jones and Judge Willis. Poppell testified the sheriff and judge conspired to profit in the arrest and conviction of vagrants who, when sentenced, were put to work in the convict camps.

Sheriff Jones told the committee he received \$20 for each man sent there.

Mrs. Poppell said her husband became ill near Quincy, falling off the running board of their automobile. Poppell's death did not become known until yesterday when Mrs. Poppell arrived.

URGE HIGHER REQUIREMENTS FOR TEACHERS

Normal School Presidents Find Curriculum About the Same

Stiffening of requirements for teachers' certificates in North Dakota is urged by the Normal School Presidents' Council, which took up questions of uniformity of curriculum and other matters affecting state schools at the request of the board of administration. Resolutions adopted by the council say:

"Since one year is too short a time in which to make professional teachers of high school graduates and since any attempt to prepare high school graduates in one year necessarily breaks the unity of a two year curriculum which should be required for a professional certificate, we recommend:

"1. That only second grade elementary certificates be given for high school graduation.

"2. That the first grade elementary certificate be given for the completion of one year of work in state teacher training institutions, for the completion of which a certificate be given by the institution, and

"3. That a diploma and a second grade professional certificate be given for the completion of two years of work beyond high school graduation as heretofore.

"4. That the board of administration be requested to introduce and endeavor to secure legislation required to make these regulations legal."

The council also expressed the opinion that all state normal teachers about the same things, stating "the diversity in the curricula is more apparent than real and the impression that diversity exists arises from differences in terminology and from different forms of tabulation rather than from differences in content."

The council is called to meet again in Bismarck May 15.

SIX MEMBERS OF FAMILY OF MINOT MAN DIE

Minot, May 7.—Dr. E. G. Demos of this city early this morning received a telegram notifying him of the accidental death last night at Fresno, California, of his father, mother, a sister, two uncles and an aunt, who were killed in an automobile in which they were riding, when struck by a train at a grade crossing. The bodies will be shipped to Iowa for burial.

WILL CONDUCT FIELD TESTS

Part of A. C. Plan to Increase
Potato Seed Market

Fargo, May 5.—Nine central and southern states have made arrangements with the department of marketing and rural finance, experiment station, North Dakota Agricultural college, for conducting field tests with three varieties of North Dakota seed potatoes, according to Dr. A. H. Benton, head of the department. The states are among the most important of North Dakota's best markets for seed stock.

The seed potatoes will be tested in competition with stock from other states. Dr. Benton said, and the results will be announced to North Dakota growers this fall. Samples of certified Bliss Tri-

umphs have been sent to Experiment stations in Alabama, Mississippi, Louisiana, Arkansas, Texas, and Oklahoma from Ward, McLean, Williams, and Pembina counties. In Iowa these potatoes will be tested at six or more places.

"More information for North Dakota growers, aimed at extending the market for potatoes of the state, will result from the arrangement," stated Dr. Benton. "Because North Dakota growers are somewhat handicapped on account of the long haul to markets, we must learn to market only the highest quality of potatoes. A system of good orderly marketing for our products is absolutely essential."

For Sale Choice Canary Singers of imported German St. Andreasberger Rollers also Martz Mountain, Jacob Bull, Dickinson, N. Dak.

MANY MAXWELL CARS SHIPPED THIS SPRING

Detroit, May 5.—With a shipment of five hundred and forty eight Maxwell cars Saturday, April 21st, all records of the Maxwell Motor

Corporation for a single day's shipment were smashed, indicating that Maxwell has apparently reached maximum production several months in advance of what is generally considered peak season.

Maxwell's history throughout the winter and spring has been one of continuous activity and it is reported that orders have constantly re-

mained well ahead of production. As production gradually mounted, toward peak season requirements, demand likewise increased at an ever growing rate, and even with the fulfillment of the present high schedule Maxwell's facilities to produce are not able to cope with public demand.

Maxwell's increasing business of

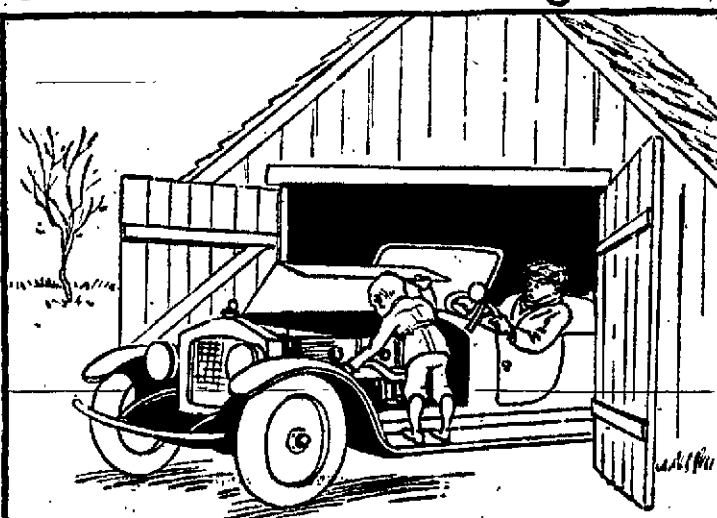

past months is well reflected in the quarterly statement of the company, that shows a net profit of over one million dollars for the period. Cash balances since the first of the year have been increased more than two-

million dollars, and despite the heavy buying necessitated by the tremendous production attained, no bank loans are carried.

With reference to the record shipment of the 21st it is also interest-

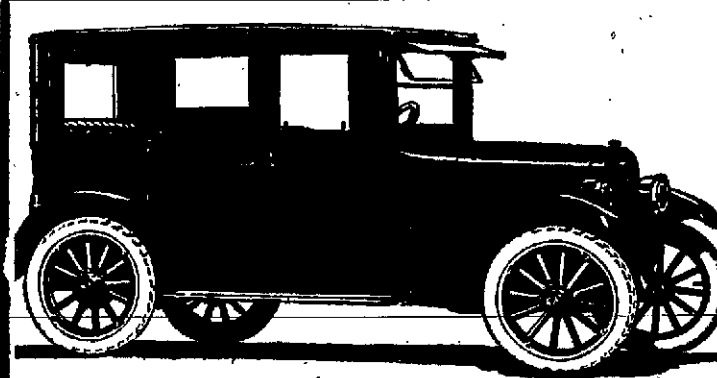

ing to note that the day's output of five hundred and forty eight cars represents sixteen more vehicles than were produced and sold by the old Maxwell-Briscoe Company in the first full year of manufacturing.

Know Its Hidden Values They Keep Essex Young

In Essex particular attention is bestowed on hidden values. They make the real difference in cars.

For weight carried the Essex frame is the sturdiest built, save one. Experts here and abroad call its motor the finest of its size.

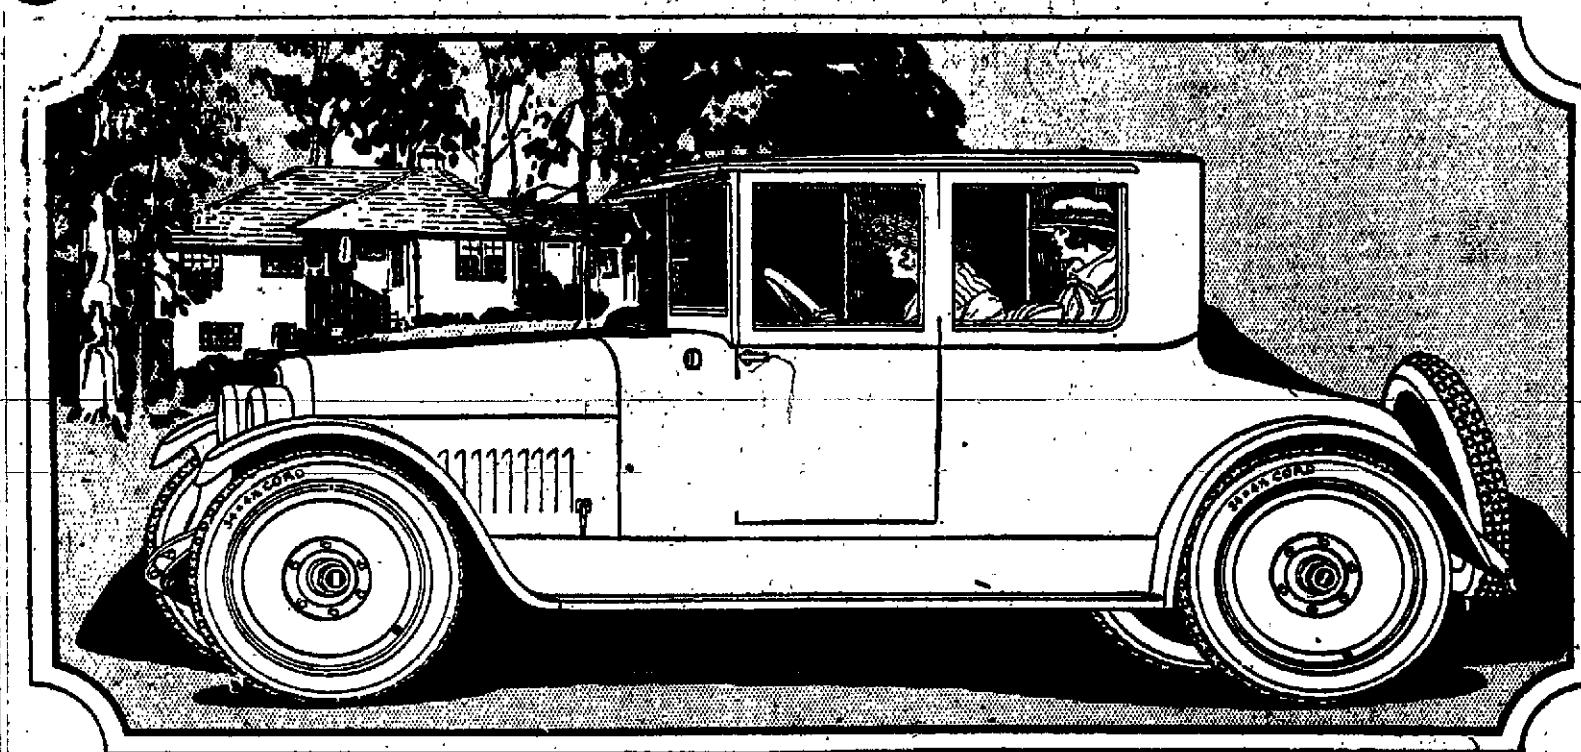

It is because of its hidden values that Essex cars that have seen 50,000 and 60,000 miles are today as dependable as when new.

Six-Cylinder Coupe

Five Disc Wheels and
Nash Self-Mounting Carrier
\$25 additional

Here's a Car You'll Want to See!

The Nash Six Coupe

Here's an admirably designed car for business and professional use or for the small family.

It enjoys all the advantage of being a year round car and yet it performs almost with the upkeep economy of an open model.

And though a three-passenger model there's room for a fourth person—the auxiliary seat disappearing neatly beneath the instrument board when not in use.

In beauty, in brilliant performance, and in enclosed car niceties of appointment you'll find

this new Nash Coupe especially attractive.

The smartly low-swung body is the prize work of craftsmen known for their fine coach conceptions both here at home and abroad.

And Nash engineers have embodied in the chassis, the motor, and the carburetor new advances in design and construction that serve to set this car in a particular class of its own.

Our shipment is a small one. It may be some time before more reach us. So don't delay. Come in today.

MORE RAILROADS REQUIRED FOR DEVELOPMENT OF WORLD'S PRODUCING POWER

By O. P. AUSTIN

Statistician, The National City Bank of New York.

New railways with which to reach the interior of the undeveloped sections of the globe will be demanded by the consuming world in the immediate future. The number of mouths which must be fed and bodies which must be clothed goes on increasing at an appalling speed. World population, which was estimated at 780,000,000 in 1820, was 1,830,000,000 in 1920, having thus increased 135% in the single century. The actual increase in numbers in the first twenty years of the century under consideration was 170,000,000 and in the closing twenty years of the century 287,000,000, notwithstanding the fact that the recent twenty year period includes the greatest war that the world has ever known.

Should the present rate of increase continue, the world's population by 1950 would approximate 2,250,000,000, or nearly 25% more than at the present time. When we find that the present world production of the great food and clothing staples, wheat, corn, rice, potatoes, sugar, cotton, wool and fibres, is in practically every instance less than that of the years immediately preceding the war, we involuntarily wonder where the world is to obtain the necessary quantity of food and clothing that the increased population of the near future will demand.

GREAT AREAS STILL UNDEVELOPED

This question is answered by an examination of the accompanying map showing the land and water transportation facilities of the world and noting the enormous land areas yet awaiting transportation facilities, to enable them to send their possible products to the water's edge where a plentiful supply of steamships will be available to carry them across the ocean to the sections of the world which do not produce enough for their own requirements. It will be seen that the interior areas of four of the six grand divisions of the world, South America, Africa, Asia and Australia, are yet lacking in railway facilities to enable them to move their possible products to the water's edge. The shipping activities of the war and the years which immediately followed it have given to the world ample facilities for transporting merchandise on the oceans, but railway construction has been practically suspended since the beginning of the war and when we examine the maps of the continents enormous producing areas which have no facilities for moving their products or possible products to the water's edge.

South America, for instance, with an area of 7,570,000 square miles has but 55,000 miles of railway while the United States with an area less than half that of South America has 252,000 miles. Africa, with an area of 11,620,000 square miles has but 32,000 miles of railway, while Europe with an area one-third as much as that of Africa has 237,000 miles of road. Asia, with an area more than five times that of the United States, has less than one-third as much rail-

way mileage as our own, and Australia, which approximates the United States in area, has but one-tenth as many miles of road as we have.

The comparative absence of railways in the four grand divisions above referred to, South America, Africa, Asia and Australia, is evidenced by the fact that the number of miles of railway for each one thousand square miles of area is in the United States 83; in all of North America 36; in Europe 62; in South

Asia her Arabian and great Gobi Deserts, and Australia her great arid interior, but our own experience with that area which a half century ago was called the "Great American Desert" has shown that cultivation along its edges increased the producing power of the adjacent lands, and the application of water by irrigation has rendered the arid land extremely productive.

This development of the producing power of our own desert areas fol-

lowed the extension of the railways into that area, and similar experiences might be expected to follow, an extension of transportation facilities to and within those areas of Asia, Africa and Australia now looked upon as deserts, and enable them to not only support a greater producing population but contribute largely to the wants of other parts of the world.

Recent developments in the application of mechanical power to production and transportation would also facilitate local production and at the same time increase the width of the belt which a railway may serve. The

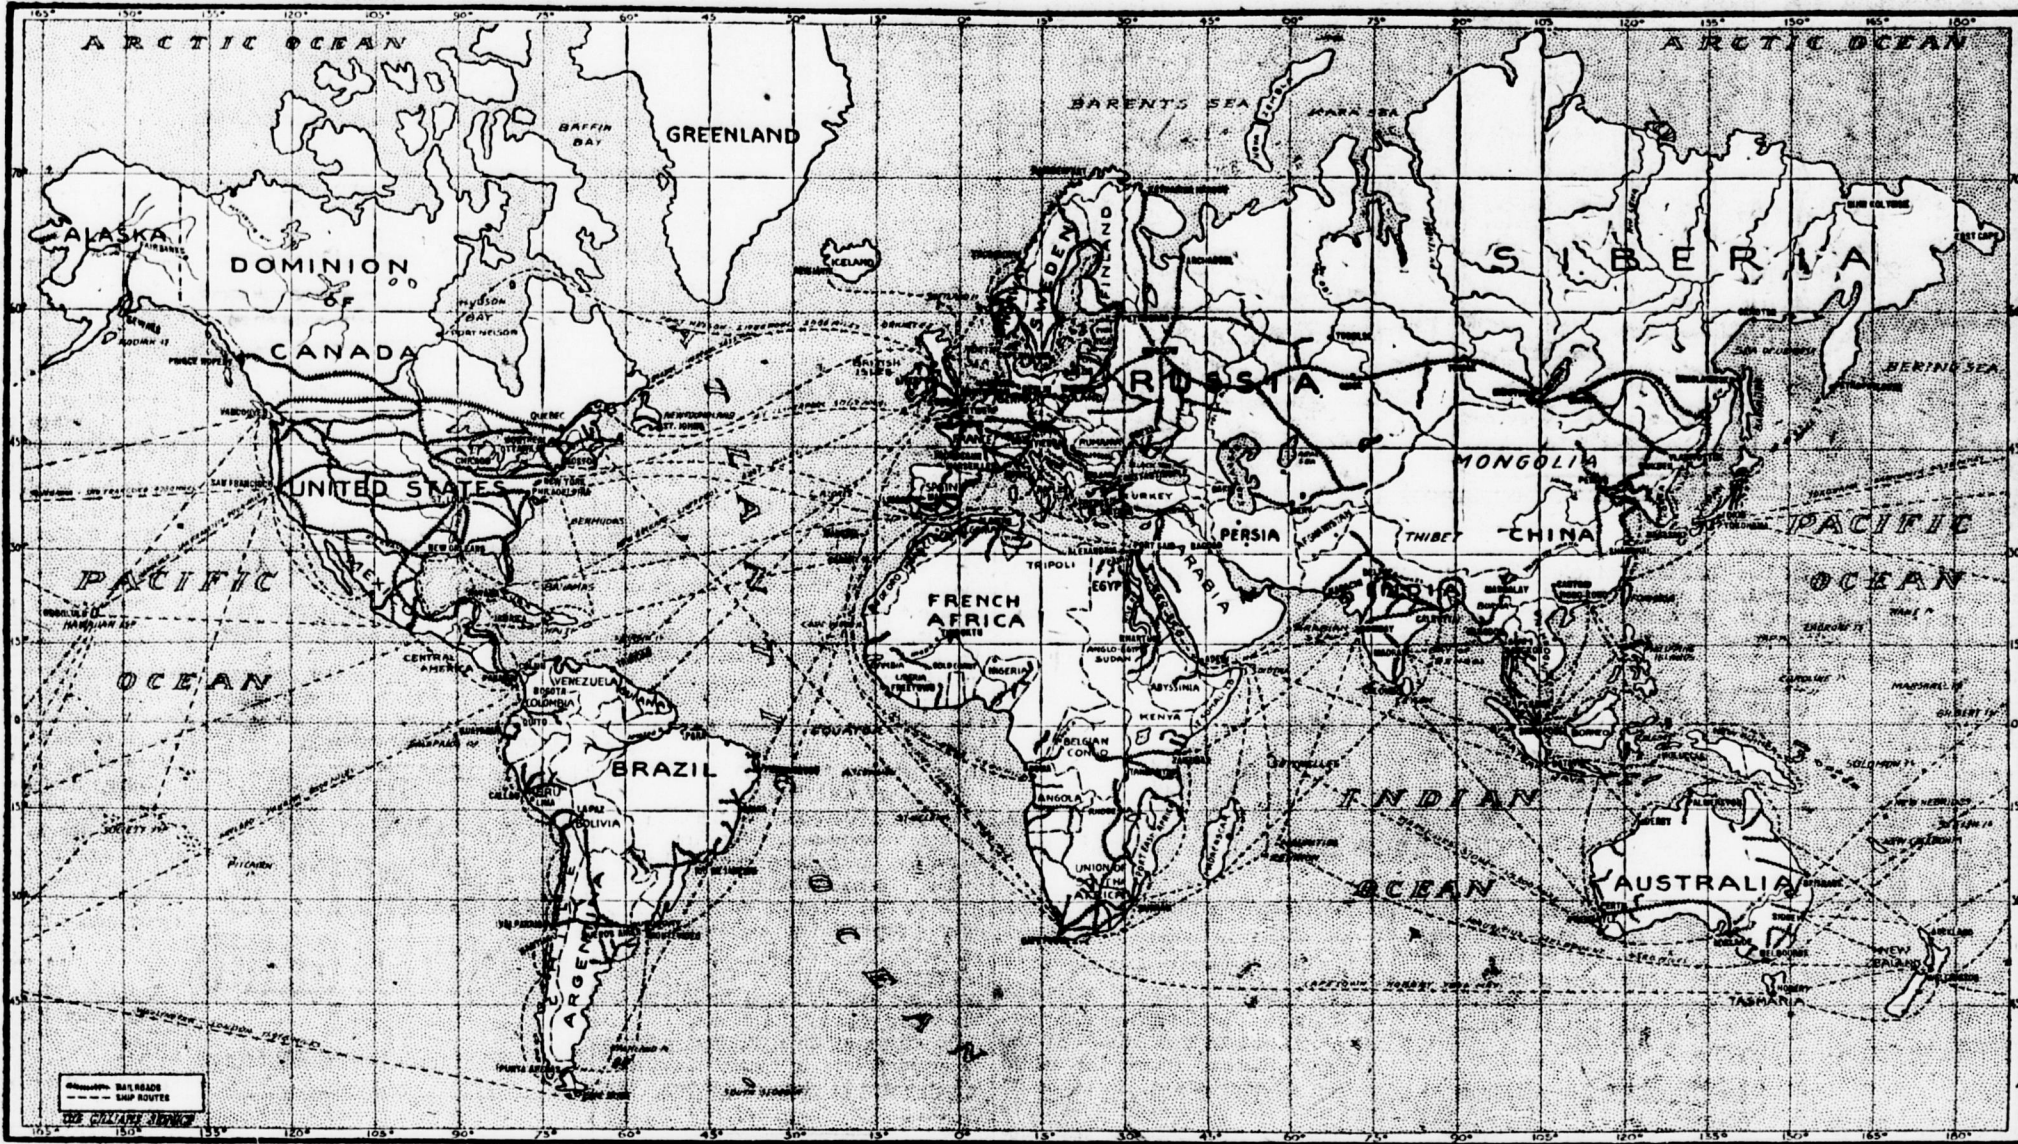

products were grown and harvested with only man power and transported to the railway by the aid of horses or oxen, which necessarily consumed a considerable percentage of the food products of the area which they served and which could now be served in large part by mechanical power. Railway development in recent years has not kept pace with the development of population, commerce, or power on the oceans. The railway mileage of the world in 1920 was practically the same as at the beginning of the war, while population increased 10% and the normal tonnage of steam vessels on the

oceans increased 14% in the same period. Thus the ratio of world railway mileage to world population or ocean transportation declined during the period 1914-1920, but meantime the demands of the world for food and the facilities for moving it across the oceans continued to increase.

COMPARATIVE COSTS OF RAILROAD CONSTRUCTION
The cost of these needed new railways per mile, in proportion to those which have been already constructed,

would probably be less than the world average, for they would be chiefly constructed in areas now sparsely populated and therefore the "right of way" including the cost of the land actually utilized by them would be in most cases nominal and in other instances where the population is dense but wages low the labor cost of construction would be comparatively small, though this would be in some degree offset by the higher prices now prevailing and also by the cost of transporting the rails and equipment which would necessarily be brought from other parts of the world. The cost of railway construction, of course, varies greatly not merely in relation to the physical characteristics of the area through which they run but especially in the sums demanded for right of way, and the land on which the roads are built. Railway construction in certain countries of Europe where the population was already dense and lands and existing buildings of an expensive character was extremely costly and in certain of the European countries which were fully developed prior to the advent of the railway the cost including the right of way and land upon which they were built brings the present estimate of "capital per mile" to from \$150,000 to \$250,000, while in the new countries where railways preceded population the capital per mile is stated at less than half that in the older and already developed communities, averaging from \$25,000 to \$50,000 per mile, as against \$150,000 to \$250,000 in the more densely populated countries of Europe.

Recent tabulations by the Bureau of Railway Economics and other high authorities put the "net capitalization" per mile of the railways of the United States at \$68,787, while the capital per mile in the European countries (which were already developed when railway construction commenced) is double and in some cases treble that of the United States. The "capital per mile" of the railways of France (exclusive of state railways) is stated at \$186,394, and the United Kingdom \$274,605. In densely populated Japan the capital per mile is set down at \$111,156, while in the newer countries where railways preceded density of population the cost is much lower, ranging from \$24,839 in Western Australia to \$60,043 in New Zealand, and \$65,714 in Canada. The total capitalization of all the railways of the world approximately \$70,000,000,000 covering the 750,000 miles of road, suggesting an average cost of \$93,000 per mile, while as above suggested the cost per mile in the areas not yet developed would, even at the present higher prices, probably be materially below the world average of earlier years.

Map Showing How World's Steamship Routes Exceed World's Railway Development and the Vast Areas Still to be Opened Up by Railroads.

America 7; in Australia 8; in Asia 4, and in Africa 3.

PRODUCTIVE LANDS READY FOR RAILWAY DEVELOPMENT

Nor can it be argued that the absence of railways in the undeveloped continents is due to a lack of producing power of their great interior areas. South America has probably less of what might be termed "desert" land in proportion to its total area than the United States had in the early stages of its development, and her mountain areas are in no greater proportion than our own. Africa, it is true, has her Sahara,

lowed the extension of the railways into that area, and similar experiences might be expected to follow, an extension of transportation facilities to and within those areas of Asia, Africa and Australia now looked upon as deserts, and enable them to not only support a greater producing population but contribute largely to the wants of other parts of the world. Aside, however, from the now "desert" sections of Africa and Asia there are great areas of absolutely fertile lands of high producing power which only need transportation and a larger population to enable them to contribute enormous quantities of

population during the years in which we were extending railways to the interior of the United States suggests that fertile areas of the interior of the other continents would not long await producers if they were supplied with facilities for moving their products to the water's edge, and especially in view of the growing demand for food and clothing materials in other parts of the world.

Recent developments in the application of mechanical power to production and transportation would also facilitate local production and at the same time increase the width of the belt which a railway may serve. The

products were grown and harvested with only man power and transported to the railway by the aid of horses or oxen, which necessarily consumed a considerable percentage of the food products of the area which they served and which could now be served in large part by mechanical power. Railway development in recent years has not kept pace with the development of population, commerce, or power on the oceans. The railway mileage of the world in 1920 was practically the same as at the beginning of the war, while population increased 10% and the normal tonnage of steam vessels on the

oceans increased 14% in the same period. Thus the ratio of world railway mileage to world population or ocean transportation declined during the period 1914-1920, but meantime the demands of the world for food and the facilities for moving it across the oceans continued to increase.

RAILWAYS OF THE WORLD, BY GRAND DIVISIONS

FIND WITNESS IN VARSITY HAZING CASE

Chicago, May 7.—J. Allen Mills, a freshman at Northwestern university in September, 1921, when Leighton Mount, also a first-year man, disappeared after a class fight, and who has been sought by authorities since a skeleton partly identified as that of Mount a week ago, has been found by the Akron, Ohio, police, according to a message received here today.

MINE OWNERS MUST PAY BACK TAXES

St. Paul, May 7.—Approximately \$5,000,000 back taxes will be exacted from mining companies operating in Minnesota under the decision of the Federal supreme court in sustaining Minnesota's law levying a 6 per cent gross earnings tax on all ore mined in the state. Collection has been held up by the mine companies attacking the constitutionality of the law.

DANES PROTEST U.S. RUM RULING

London, May 7.—The Copenhagen correspondent of the Times says that several Danish Trade organizations have requested the government to protest to the United States against a recent prohibition ruling of the supreme court of the United States which they hold is contrary to international law. They have also asked the government to approach other governments with a view to inducing them to protest in a similar manner.

G. N. Rail Head Confirms Reports

Fargo, May 7.—A telephone communication from Ralph Budd, president of the Great Northern Railway Co., St. Paul, confirmed reports of the company's increasing its rail facilities.

continuing or moving round-houses or shops from other points.

STILL HAVE HOPES

Berlin, May 7.—Despite the acrimonious tenor of the French reply on the German reparations note the foreign office is not inclined to interpret it as wholly barricading the path to negotiations.

COURT RULES IN SHIP CASE

Washington, May 7.—The United States can compel masters of arriving vessels to submit manifest

showing all articles aboard including those whose importation is prohibited, the supreme court held today in a case brought by the government against Wesley Sischo.

MINNEAPOLIS FLOUR

Minneapolis, May 7.—Flour unchanged. Family patent quoted at \$6.80 to \$7 a barrel. Bran, \$28 to \$28.50.

NOTICE OF SALE FORFEITURE REAL ESTATE MORTGAGE.

Notice is hereby given that certain mortgage made, executed and delivered by W. J. Richard and Cora Richard, his wife, mortgagors, to August E. Johnson of Washburn, N. D., mortgagee, dated April 6th, 1920, and filed of record in the office of Register of Deeds of Burleigh county on April 8th, 1920, and recorded in book 161 of mortgages on page 555, will be foreclosed by sale of the premises in such mortgage and hereinafter described, at the front door of the Burleigh county court house at Bismarck, N. D., at two o'clock p. m. on May 17th, 1923, to satisfy the amount due upon such mortgage on the day of sale.

Default has occurred under the conditions of said mortgage, as mortgagors have failed and refused to pay two installments of Forty and Ninety Dollars (\$40.00 each, due on April 6th of the years 1921 and 1922 respectively; and the taxes for the years 1920, 1921 and 1922 respectively in the sum of Two Hundred Sixty-one and 89-100ths Dollars (\$261.89) after delinquency by these mortgagors, together with two interest installments of One Hundred Twenty and Ninety Dollars (\$120 each, due on April 6th of the years 1921 and 1922 respectively, and the taxes for the years 1920, 1921 and 1922 respectively in the sum of Six Hundred Sixty-six and 64-100ths Dollars (\$666.64), together with the costs and disbursements of this sale.

AUGUST E. JOHNSON, Mortgagee.

H. G. HIGGINS, Attorney for Mortgagee, Baldwin, N. D. 4-6-13-20-27-5-4-11-18

NOTICE OF MORTGAGE FORECLOSURE SALE.

Notice is hereby given that certain mortgage executed by Thomas Garros and Emma Garros, his wife, mortgagors, to D. T. Owens, mortgagee, dated March 15th, 1917, filed for record in the office of the Register of Deeds of Burleigh county, North Dakota, March 26th, 1917, and duly recorded in Book 138 of Mortgages on page 233, will be foreclosed by a sale of the premises in such mortgage and hereinafter described at the front door of the court house in the city of Bismarck, Burleigh county, North Dakota, at the hour of 2 o'clock in the afternoon of the 22nd day of May, 1923, to satisfy the amount due on such mortgage on the day of sale.

The premises described in said mortgage and which will be sold to satisfy the same are described as follows: Lot number 11 of section 3, township 137 north of range 80 west of the 5th Prim. M., containing 40.6 acres,

OFF TO RUSSIAN KUZBAS COLONY

Waving red banners and singing songs, these men and women sailed from New York to join the William Haywood colony in Russia. They are the sixth group to leave America for the Kuzbas colony of industrialists.

more or less. There will be due on such mortgage at the date of sale \$286.75, besides the costs of foreclosure.

Dated this 13th day of April, 1923. D. T. OWENS, Mortgagee.

W. L. SMITH, Attorney for Mortgagee, Bismarck, North Dakota. 4-13-20-27-5-4-11-18

STOFFELS OUT WITH A STRONG STATEMENT

**Tanlac Invigorated Me From
Head to Foot," Declares St.
Paul Citizen — Feels As
Strong At 62 As He Did At
40.**

"After what Tanlac has done for me I don't hesitate to speak my mind about it," says John F. St. Paul, a well known employee of the American Hosiery & Dyeing Co. "My appetite used to be so poor I barely ate enough to keep soul and body together, and the little I did force down kept me in misery for hours. Some times I ached all over, had headaches and dizzy spells, and was too nervous to get much sleep. I had no energy and at times felt very weak and tired. Tanlac has rid me of every sign of indigestion, gives me an unflinching appetite, and invigorated me from head to foot. Why, I am now sixty-two years old, and to say I feel as husky and vigorous as I did at forty expresses what Tanlac has done for me better than any other way I can put it."

Over 37 million bottles sold.

Notice of Execution Sale.
STATE OF NORTH DAKOTA,
County of Burleigh—ss.
In Justice Court, Before H. C. W. Hyde, Justice of the Peace,
John E. Carlson, Plaintiff,
vs.
Clifford Thompson, Defendant.
Notice is hereby given, that by virtue of an execution issued by H. C. W. Hyde, a justice of the peace in and for the County of Burleigh and State of North Dakota, upon a judgment rendered in Justice Court in favor of John E. Carlson and against Clifford Thompson, I have levied upon, seized and taken the following described personal property of said Defendant, to-wit: Four horses, now held by said plaintiff, some being the property of the defendant, and now held by plaintiff as security for damages done by these

horses and others belonging to the defendant. The said horses are described as follows:
One black mare, about 8 years old, weight 1,300 pounds, star in forehead, white hind feet; one iron gray gelding, about 9 years old, weight 1,300 pounds; one bay mare, about 7 years old, weight 1,250 pounds; one bay colt, 2 years old.

Which I shall expose for sale and sell at public auction to the highest bidder for cash on Friday, the 2nd day of May, A. D. 1923, at two o'clock p. m., at the front door of the livery barn at Regan, Burleigh County, North Dakota.

CHARLTON DANIELSON,
Constable of said Burleigh County.
JOSEPH COGILLAN,
Attorney for John E. Carlson,
Bismarck, N. D.
Dated April 21, 1923.

NOTICE OF FORECLOSURE SALE BY ADVERTISEMENT.

Notice is hereby given that default has been made in the terms of that certain mortgage executed and delivered by Celia K. Walla and E. M. Walla, her husband to Sophia Nicola and assigned to the Bismarck Loan and Investment company, a corporation of Bismarck, N. D., dated the 29th day of September, 1922 and filed for record in the office of the register of deeds of Burleigh County, N. D., on the 3rd day of October, 1922, at 2 o'clock p. m. in book 171 of Mortgages on 212, will be foreclosed by sale of the premises described in such mortgage and hereinafter described at the front door of the court house in the city of Bismarck, and in the county of Burleigh and state of North Dakota at the hour of 10 o'clock in the forenoon on the 9th day of June, 1923, to satisfy the amount due upon such mortgage on the day of sale. The premises described in such mortgage and which will be sold to satisfy the same are described as follows to-wit: Lot numbered seven in block ninety-six of the original plat of the city of Bismarck, N. D. That there will be due on such mortgage at the date of the sale the sum of \$1,498.10 in addition to the costs and expenses of sale including attorneys fees. Dated May 3, 1923.

DICKINSON AND MOHALL MEET

The Dickinson and Mohall high schools will compete at the state conference at the University of North Dakota May 19 to determine the 1923 high school debating championship of North Dakota, as the result of Dickinson's victory over Casselton by a four to one decision. The contest, held at Dickinson, was the last of a series of elimination contests to determine the two final contenders. The Dickinson team, composed of Gayle Pugh, Howard Eyer and Lloyd Rhine, upheld the affirmative of the question used in all the debates, namely: "Resolved, That the Closed Shop in Industry is for the Best Interests of the American People."

The Casselton debaters were Eddie Wichman, Amy Wilson and Ora Chornbaum.

Both Dickinson and Casselton had eliminated several opponents in progressing to the semi-finals. With the contenders reduced to three, Mohall had drawn a bye, putting it in the finals.

STOFFELS OUT WITH A STRONG STATEMENT

**Tanlac Invigorated Me From
Head To Foot," Declares St.
Paul Citizen — Feels As
Strong At 62 As He Did At
40.**

"After what Tanlac has done for me, I don't hesitate to speak my mind about it," says John F. Stoffels, 1309 11th Ave. S. St. Paul, Minn., a well known employee of the American Hoist & Derrick Co. "My appetite used to be so poor I barely ate enough to keep soul and body together, and the little I did force down kept me in misery for hours. Some times I ached all over, had headaches and dizzy spells, and was too nervous to get much sleep. I had no energy and at times felt very weak and tired. "Tanlac has rid me of every sign of indigestion, gives me an unflagging appetite, and invigorated me from head to foot. Why, I am now sixty-two years old, and to say I feel as husky and vigorous as I did at forty expresses what Tanlac has done for me better than any other way I can put it."

horses and others belonging to the defendant. The said horses are described as follows:
One black mare, about 8 years old, weight 1,300 pounds, star in forehead, white hind feet; one iron gray gelding, about 9 years old, weight 1,300 pounds; one bay mare, about 7 years old, weight 1,250 pounds; one bay colt, 2 years old.
Which I shall expose for sale and sell at public auction to the highest bidder for cash on Friday, the 2nd day of May, A. D. 1923, at two o'clock p. m., at the front door of the livery barn at Regan, Burleigh County, North Dakota.

MORE RAILROADS REQUIRED FOR DEVELOPMENT OF WORLD'S PRODUCING POWER

By O. P. AUSTIN
Statistician, The National City Bank
of New York.

New railways with which to reach the interior of the undeveloped sections of the globe will be demanded by the consuming world in the immediate future. The number of mouths which must be clothed goes on increasing at an appalling speed. World population, which was estimated at 780,000,000 in 1820, was 1,830,000,000 in 1920, having thus increased 135% in the single century. The actual increase in numbers in the first twenty years of the century under consideration was 170,000,000 and in the closing twenty years of the century 287,000,000, notwithstanding the fact that the recent twenty year period includes the greatest war that the world has ever known.

Should the present rate of increase continue, the world's population by 1950 would approximate 2,250,000,000, or nearly 25% more than at the present time. When we find that the present world production of the great food and clothing staples, wheat, corn, rice, potatoes, sugar, cotton, wool and fibres, is in practically every instance less than that of the years immediately preceding the war, we involuntarily wonder where the world is to obtain the necessary quantity of food and clothing that the increased population of the near future will demand.

GREAT AREAS STILL UNDEVELOPED

This question is answered by an examination of the accompanying map showing the land and water transportation facilities of the world and noting the enormous land areas yet awaiting transportation facilities, to enable them to send their possible products to the water's edge where a new plentiful supply of steamships will be available to carry them across the ocean to the sections of the world which do not produce enough for their own requirements. It will be seen that the interior areas of four of the six grand divisions of the world, South America, Africa, Asia and Australia, are yet lacking in railway facilities to enable them to move their possible products to the water's edge. The shipbuilding activities of the war and the years which immediately followed it have given to the world ample facilities for transporting merchandise on the oceans, but railway construction has been practically suspended since the beginning of the war and when we examine the maps of the continents above named it is apparent that they have within their respective interiors enormous producing areas which have no facilities for moving their products or possible products to the water's edge.

South America, for instance, with an area of 7,570,000 square miles has but 55,000 miles of railway while the United States with an area less than half that of South America has 352,000 miles. Africa, with an area of 11,620,000 square miles has but 32,000 miles of railway, while Europe with an area one-third as much as that of Africa has 237,000 miles of railway. Asia, with an area more than five times that of the United States, has less than one-third as much rail-

way mileage as our own, and Australia, which approximates the United States in area, has but one-tenth as many miles of road as we have.

The comparative absence of railways in the four grand divisions above referred to, South America, Africa, Asia and Australia, is evidenced by the fact that the number of miles of railway for each one thousand square miles of area is in the United States 81 in all of North America 36, in Europe 62, in South

Asia her Arabian and great Gobi Deserts, and Australia her great arid interior, but our own experience with that area which a half century ago was called the "Great American Desert" has shown that cultivation along its edges increased the producing power of the adjacent lands, and the application of water by irrigation has rendered the arid land extremely productive.

This development of the producing power of our own desert areas fol-

lowed the extension of the railways into that area, and similar experiences might be expected to follow, an extension of transportation facilities to and within these areas of Asia, Africa and Australia now looked upon as deserts, and enable them to not only support a greater producing population but contribute largely to the wants of other parts of the world.

Recent developments in the application of mechanical power to production and transportation would also facilitate land production and at the same time increase the width of the belt which a railway may serve. The

products were grown and harvested with only man power and transported to the railway by the aid of horses or oxen, which necessarily consumed a considerable percentage of the food products of the area which they served and which could now be served in large part by mechanical power.

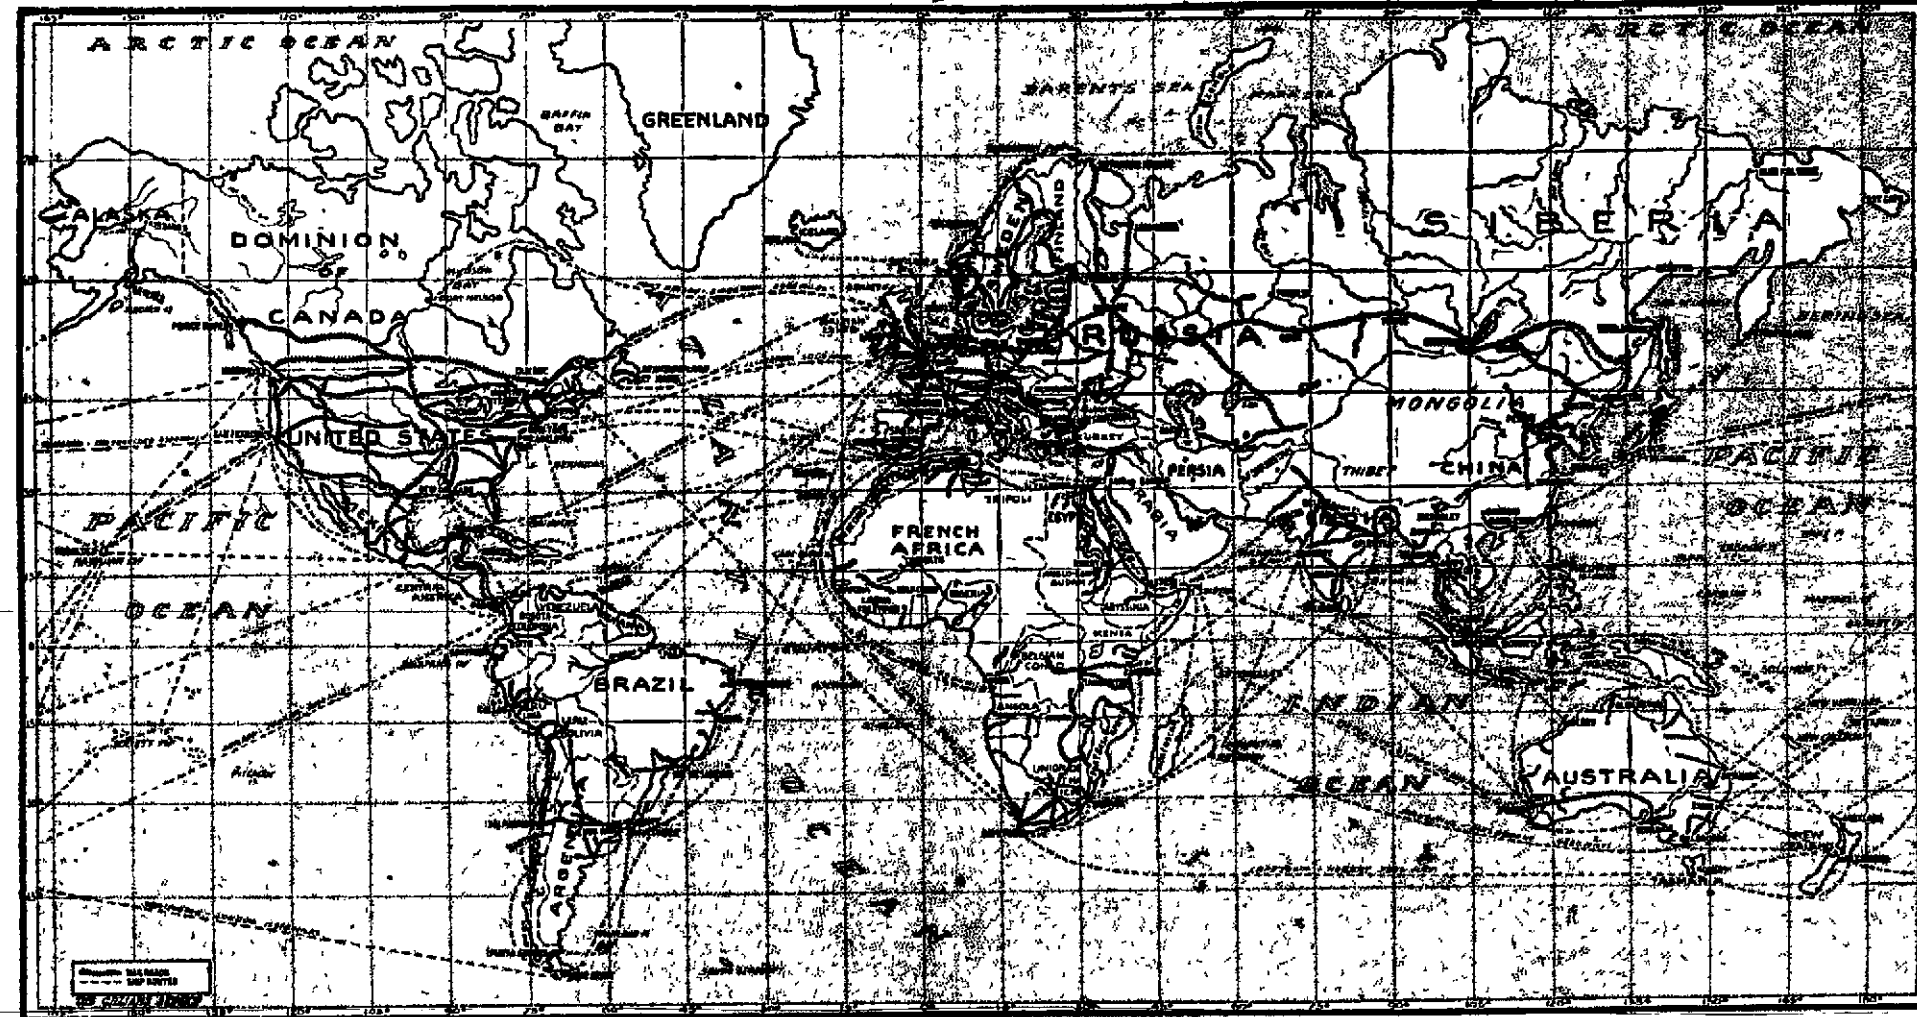

Railway development in recent years has not kept pace with the development of population, commerce, or mechanical power on the oceans. The railways of the world in 1920 were practically the same as at the beginning of the war, while population increased 10% and the nominal tonnage of steam vessels on the

oceans increased 14% in the same period. Thus the ratio of world railway mileage to world population or ocean transportation declined during the period 1914-1920, but meaning the demands of the world for food and the facilities for moving it across the oceans continued to increase.

COMPARATIVE COSTS OF RAILROAD CONSTRUCTION
The cost of these needed new railways per mile, in proportion to those which have been already constructed,

would probably be less than the world average, for they would be easily constructed in areas now sparsely populated and therefore the "right of way" including the cost of the land actually utilized by them would be in most cases nominal and in other instances where the population is dense but wages low the labor cost of construction would be comparatively small, though this would be in some degree offset by the higher prices now prevailing and also by the cost of transporting the rails and equipment which would necessarily be brought from other parts of the world. The cost of railway construction, of course, varies greatly not merely in relation to the physical characteristics of the areas through which they run but especially in the sums demanded for right of way, and the land on which the roads are built. Railway construction in certain countries of Europe where the population was already dense and lands and existing buildings of an expensive character was extremely costly and in certain of the European countries which were fully developed prior to the advent of the railway the cost including the right of way and land upon which they were built brings the present estimate of "capital per mile" to from \$150,000 to \$250,000, while in the new countries where railways preceded population the capital per mile is stated at less than half that in the older and already developed communities, averaging from \$25,000 to \$75,000 per mile, as against \$150,000 to \$250,000 in the more densely populated countries of Europe.

Recent tabulations by the Bureau of Railway Economics and other high authorities put the "net capitalization" per mile of the railroads of the United States at \$68,787, while the capital per mile in the European countries (which were already developed when railway construction occurred) is double and in some cases treble that of the United States. The "capital per mile" of the railways of France (exclusive of state railways) is stated at \$186,394, and the United Kingdom \$274,605. In densely populated Japan the capital per mile is set down at \$111,156, while in the newer countries where railways preceded density of population the cost is much lower, ranging from \$24,839 in Western Australia to \$60,043 in New Zealand, and \$65,714 in Canada. The total capitalization of all the railways of the world apparently approximates \$70,000,000,000, covering the 750,000 miles of road, suggesting an average cost of \$93,000 per mile, while as above suggested the cost per mile in the areas not yet developed would, even at the present higher prices, probably be materially below the world average of earlier years.

Map Showing How World's Steamship Routes Exceed World's Railway Development and the Vast Areas Still to be Opened Up by Railroads.

America 7, in Australia 8; in Asia 4, and in Africa 3.

PRODUCTIVE LANDS READY FOR RAILWAY DEVELOPMENT

Nor can it be argued that the absence of railways in the undeveloped continents is due to a lack of producing power of their great interior areas. South America has probably less of what might be termed "desert" land in proportion to its total area than the United States had in the early stages of its development, and her mountain areas are in no greater proportion than our own. Africa, it is true, has her Sahara,

lowed the extension of the railways into that area, and similar experiences might be expected to follow, an extension of transportation facilities to and within these areas of Asia, Africa and Australia now looked upon as deserts, and enable them to not only support a greater producing population but contribute largely to the wants of other parts of the world. Recent developments in the application of mechanical power to production and transportation would also facilitate land production and at the same time increase the width of the belt which a railway may serve. The

products were grown and harvested with only man power and transported to the railway by the aid of horses or oxen, which necessarily consumed a considerable percentage of the food products of the area which they served and which could now be served in large part by mechanical power.

Railway development in recent years has not kept pace with the development of population, commerce, or mechanical power on the oceans. The railways of the world in 1920 were practically the same as at the beginning of the war, while population increased 10% and the nominal tonnage of steam vessels on the

RAILWAYS OF THE WORLD, BY GRAND DIVISIONS

FIND WITNESS IN VARSITY HAZING CASE

Chicago, May 7.—J. Allen Mills, a freshman at Northwestern university in September, 1921, when Leighton Mount, also a freshman, mysteriously disappeared after a hazing fight, and who has been sought by authorities since a skeleton partly identified as that of Mount a week ago, has been found by the Akron, Ohio, police, according to a message received here today.

MINE OWNERS MUST PAY BACK TAXES

St. Paul, May 7.—Approximately \$5,000,000 back taxes will become due from mining companies operating in Minnesota under the decision of the Federal supreme court in sustaining Minnesota's law levying a 6 per cent gross earnings tax on all oil mined in the state. Collection has been held up by the mine companies attacking the constitutionality of the law.

DANES PROTEST U.S. RUM RULING

London, May 7.—The Copenhagen correspondent of the Times says that several Danish Trade organizations have requested the government to protest to the United States against a recent prohibition ruling of the supreme court of the United States which they hold is contrary to international law. They have also asked the government to approach other governments with a view to inducing them to protest in a similar manner.

G. N. Rail Head Confirms Reports

Fargo, May 7.—A telephone communication from Ralph Budd, president of the Great Northern Railway Co., St. Paul, confirmed reports of the company's increasing its rail facilities.

continuing or moving round houses or shops from other points.

STILL HAVE HOPES
Berlin, May 7.—Despite the acrimonious tenor of the French reply on the German reparations note the foreign office is not inclined to interpret it as wholly barricading the path to negotiations.

COURT RULES IN SHIP CASE

Washington, May 7.—The United States can compel masters of arriving vessels to submit manifest

showing all articles aboard including those whose importation is prohibited, the supreme court held today in a case brought by the government against Wesley Sischo.

MINNEAPOLIS FLOUR.
Minneapolis, May 7.—Flour unchanged. Family patent quoted at \$6.80 to \$7 a barrel. Bran, \$28 to \$28.50.

Committee Named To Study Business Cycles Urges Caution In Boom Periods In Report Just Issued

MATTHEW WOLL

MISS MARY VAN KLEECK

The Federal Reserve banks now hold a much larger amount of gold than is needed to support all the credit requirements of American industry and agriculture, according to the committee on Unemployment and Business Cycles, appointed by Herbert Hoover, Secretary of Commerce, which has just made its report. One of the propositions brought forward by the investigators, who have been seeking a way to guard against future periods of depression such as those which have always followed prosperity in the past, is to set aside a special reserve of this gold against the foreign demands that will come with resumption of normal world business, thus removing from the field of temptation an easy means of inflating American credits to the danger point.

Banks are urged by the report to use extreme precaution in granting loans near the near the end of the year. Individual business men are warned that their best protection is to study all available sources of authentic information regarding world and national stocks of their respective commodities guiding their purchases accordingly. The Federal Government and the states are asked

to delay public works and not compete with private building expansion during the current boom. Many other interesting correctives are advanced by the committee, whose personnel makes the report carry weight. Owen D. Young, president of the General Electric Company, is chairman. The other members are Joseph Defrees, former president of the United States Chamber of Commerce; Mary Van Kleeck, of the Russell Sage Foundation; Matthew Woll, vice-president of the American Federation of Labor; Clarence M. Woolley, president of the American Radiator Company, and Edward E. Hunt, secretary of the President's Conference on Unemployment, of which the committee is part.

NOTICE OF SALE FORECLOSURE REAL ESTATE MORTGAGE.

Notice is hereby given that certain mortgage made, executed and delivered by W. J. Richard and Cora Richard, his wife, mortgagors, to August E. Johnson of Washburn, N. D., mortgagee, dated April 10, 1920, and filed of record in the office of Register of Deeds of Burleigh county on April 8th, 1920, and recorded in book 161 of mortgages on page 265, will be foreclosed by sale of the premises in such mortgage and hereinafter described, at the front door of the Burleigh county court house at Bismarck, N. D., at 10 o'clock p. m. on May 17th, 1923, to satisfy the amount due upon such mortgage on the day of sale.

Default has occurred under the conditions of said mortgage, as mortgagors have failed and refused to pay two installments of Forty and Ninety Dollars (\$40.00 each, due on April 6th of the years 1921 and 1922 respectively; and the taxes for the years 1920, 1921 and 1922 respectively in the sum of Two Hundred Sixty-one and 80-100ths Dollars (\$261.80), by delinquency by these mortgagors, together with two interest installments of One Hundred Twenty and Ninety Dollars (\$120.00 each, due on the 6th of April, 1921, and 1922 respectively on a prior recorded mortgage on said premises, and which taxes and prior mortgage interest the mortgagors includes with interest thereon as mortgage indebtedness, together with all installments of this mortgage indebtedness otherwise matured, because of said default declared immediately due.

Notwithstanding the above, the mortgagee, as provided by this mortgage, The premises described in such mortgage and which will be sold to satisfy the same are:

Notwithstanding the above, the mortgagee, as provided by this mortgage, The premises described in such mortgage and which will be sold to satisfy the same are:

OFF TO RUSSIAN KUZBAS COLONY

Waving red banners and singing songs, these men and women sailed from New York to join the William Haywood colony in Russia. They are the sixth group to leave America for the Kuzbas colony of industrialists.

more or less. There will be due on such mortgage at the date of sale \$286.75, besides the costs of foreclosure.

Dated this 13th day of April, 1923.
D. T. OWENS,
Mortgagee.

BREAKFAST IN A HURRY

Ask for Quick Quaker Oats if you want breakfast in a hurry. It cooks in from 3 to 5 minutes—as well as an hour and a half. No other oat flakes on the market cook anywhere near so quickly. The same delicious flavor as regular Quaker Oats. Flaked from the finest grains only. But in Quick Quaker the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are softer and thinner—that is all. And those small, thin flakes cook quickly.

Your grocer has both styles—the Quick and the regular. If you want this quick cooking ask for Quick Quaker.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

SOME CONVINCING FIGURES

Public sentiment on the water issue is crystallizing fast and it is earnestly desired that a record vote register the decision at the polls next Monday. Everyone interested in the future of Bismarck should vote and give the commission power to bring order out of the present chaos.

The disposition of the city commission to provide a power plant in connection with the new proposals for a city owned water system is wise in the extreme and is winning additional support to their plans daily.

Figures presented in this issue of The Tribune show conclusively that a great saving can be made in the use of oil driven engines to pump the water thus relieving the city commission of entering into a contract that might tie their hands in the fixing of a fair rate to the people of Bismarck.

The article also touches upon the possibility of using the same plant for street lighting, and for lighting the schools and other public buildings in Bismarck.

When a local industry can cut its monthly bill for power from \$1,600 to slightly more than \$300 a month, the city commission is justified in making provision to save the water consumers on this item of expense.

There is some confusion on the general issues. Whether the city commission purchases the present plant or builds a new one, the bond election is necessary. While the city commission desires to buy the present plant if it can be purchased at a just figure, it desires in any event to take steps to provide an adequate water supply for this thriving city which has a great destiny before it, provided these issues are settled undisturbed by private interests whose profits may be disturbed but the city generally benefited and put in a position to progress more rapidly.

The settlement of the water problem is the great issue before the people now and during the next week, every citizen should acquaint himself with the facts. Bismarck's future, the health and happiness of its citizens are involved in the settlement of this problem and if surface indications can be relied upon the people will speak most emphatically next Monday.

In any event, the people will demand a complete city owned and city controlled water plant whose management none but the elected representatives of the people can control—that means city ownership of every unit and agency used in delivering water to the consumers of Bismarck.

A RAT'S TALE

You read "Pigs Is Pigs," of course, and laughed. Here's a true case, something along the same line. The late Lord Moulton was a high executive of the British government during the war. His son publishes a book about the old man's career, and says that after he retired from public life he used to amuse himself by re-reading some of the more glaring instances of the amount of work which could be devoted to the most trivial matters.

Lord Moulton sat and haw-hawed for hours over the British official documents known as the Great Rat Correspondence.

The total of these documents looks like a report by one of our Congressional investigating committees. A few of them give you the general idea. First sample:

With reference to B. M. Q. M. G. 7, 11683, twelve special rats were obtained for the Chemical Shell Store, and authority is now requested please for an expenditure of 3 pence per week per rat for maintenance, as besides being kept alive they must always be in good condition to satisfactorily serve the purpose for which they were provided.

After passing through various hands and accumulating a raft of departmental comments, this official answer was received:

No objection to necessary expenditure within 3 pence a week a rat. We have no information as to cost, but should have thought it might be less. You no doubt will take steps to see that the establishment is not unduly increased.

As months slipped by and the great war raged, correspondence concerning the rats kept piling up, increasingly more complicated. As, for instance, this prize specimen:

Noted, 12 rats were originally purchased, but the stock shortly increased to 34, of which 6 were sent to a Trench Warfare Filling Factory and 3 destroyed, leaving a total of 25. In view of the Chemical Shell Store at Gatwick shortly opening, it would be a pity to destroy these rats, as at least a dozen will be required for Gatwick. It is therefore considered necessary to keep a stock of 30 rats at Woolwich and Gatwick, i. e., 18 Woolwich (including reserve of 6) and 12 at Gatwick. Any surplus above this number will be sold, if possible, and profit credited to the Rat Fund, or else destroyed. Authority is requested for the above establishment to be maintained.

It cost England thousands of dollars to keep track of these rats. The correspondence is typical of the procrastination and stupidity of our own Red Tape Worms in Washington. Since most governmental matters are handled in the same spirit in most countries, governmental delay and bone-headedness are proverbial.

However, you find the same thing in many large corporations where "system" and "efficiency" have accumulated until the corporation resembles a cat after playing with two miles of yarn.

And, for that matter, most of us don't have to go outside our personal lives to find "glaring instances" of the amount of work which can be devoted to the most trivial matters.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

SENATOR NELSON'S SUCCESSOR

The death of Senator Nelson nearly two years before the end of his term creates a situation which, while not unprecedented, is unusual. The law imposes upon the Governor the duty of temporarily filling the vacancy by appointment, until it can be regularly filled at the next general election in November, 1924.

But Governor Preus is himself the man who should be appointed since he is the man who, so far as can now be determined, will be re-nominated for the place by the dominant party of the State. He is the man whom Senator Nelson most desired to see as his own successor. He is the strong man of the Republican Party in Minnesota. He has twice been elected Governor, the last time in the face of a wide movement of revolt that carried down to defeat other leaders like Senator Kellogg. If an election could be held next week, there isn't much doubt that J. A. O. Preus would be chosen Senator.

Then there is the situation at Washington. By death and defeat Minnesota has lost her commanding position in the Senate. She needs to send to Washington as the junior Senator next December a strong, forceful man. That, of course, is Governor Preus.

Were the Governor to make merely a stop-gap appointment, were he to use the appointment merely to confer a temporary honor on some one who would not be a candidate for election in 1924, he would delay by two years the work of regaining for Minnesota her high place in the Senate and the councils of the Nation.

The delicate political balance of the new Senate is an important consideration, too. The forces of conservatism, such conservatism as Minnesota really believes in, need reinforcement so as to close up the breach left by Senator Nelson's death.

What, then, stands in the way? Purely personal considerations, the natural hesitancy of Governor Preus to bring about his own advancement by resignation and by delegation of the duty of appointment to his successor, Lieutenant Governor Collins. This hesitancy does the Governor credit, but in the face of the growing and wide-spread sentiment throughout the State, it should not stand in the way of the only proper solution.

Especially is this case, since Mr. Collins has demonstrated his entire fitness to serve well as Governor, and since he enjoys wide popular esteem and affection, which have in a way acclaimed him for election in 1924.

Moreover, with the adjournment of the Legislature the most important part of the work for which Governor Preus was elected has been done and there will be no other regular session during the remainder of the term. And if Mr. Collins were to succeed to the Governorship in this manner, he would really have no option but to pursue the course laid out for him by the circumstances of the case.

If there are political risks involved in this course of action for either Governor Preus or Lieutenant Governor Collins, they should be taken, because the logic of the situation demands that the Governor should step into the shoes of his dead mentor and friend.

We verily believe that such a decision will be generally approved by the people of Minnesota.—Minneapolis Journal.

ARE THEY INCOMPETENT?

R. W. Frazier, the Nonpartisan leader who claims to be state chairman of the Republican party, proposes that the editors of farmer and labor papers throughout the state chip in ten dollars a month or so to have John Andrews, late editor of the Fargo Courier-News, write their editorials for them, the weekly batch of editorials running through all the subscribing papers. John is a very capable writer, but what grievance has Frazier against the present editors of the farmer and labor papers? Are they incompetent, negligent, or are they for any other reason failing to set forth the principles of the league in their columns?—Grand Forks Herald.

A THOUGHT

There is no remembrance of former things; neither shall there be any remembrance of things that are to come with those that shall come after.—Eccles. 1:11.

And when he is out of sight, quickly also he is out of mind.—Thomas a Kempis.

GIRLS! MAKE UP A LEMON CREAM

Lemons Beautify and Whiten Skin; also Bleach Tan, Freckles

Mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for 25 cents, shake well in a bottle, and you have a whole quart-pint of the most wonderful skin softener and complexion beautifier. Massage this sweetly fragrant lemon cream into the face, neck, arms and hands, then shortly note the youthful beauty, softness and whiteness of your skin.

Famous stage beauties use this harmless lemon cream to bring their velvety, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

THE GREAT AMERICAN HANDICAP RACE

MANDAN NEWS

Early Resident of District Dies

Mrs. Bertia Rasmussen, aged 60, pioneer resident of the Sims district, died Friday afternoon after a long illness with Bright's disease. The deceased came to Sims district 20 years ago with her husband who died about eight years ago. Following his death Mrs. Rasmussen went to Minneapolis, Minn., where she lived until a couple of years ago, returning and making her home here. She had been an invalid for several years. One daughter, age 13, survives.

Funeral services were held from the Sims church today.

Encephalitis Claims Child

Encephalitis lethargica, sleeping sickness, claimed another victim late Friday afternoon when Esther, three year old daughter of Mr. and Mrs. E. A. Strom of Hazen, succumbed to the malady.

The child was brought here to the Deaconess hospital on Wednesday in such serious condition she could not respond to the serum treatment. The boy was taken to Hazen and the funeral services held there on Sunday. Mr. Strom, the father, is a barber at Hazen.

The marriage of Miss Gladys H. Klier and Max Kalweit, both of Mandan, took place at the Churchtown parsonage near Rosebud at 4 o'clock last Monday. Rev. Bordeaux officiated. The couple was attended by Mr. and Mrs. Ott Kalweit.

Mrs. C. C. Atkinson who has been a guest for several days at the home of Mr. and Mrs. Ralph Keller in Fargo returned home Sunday.

NOTICE OF MORTGAGE FORECLOSURE SALE.

Notice is hereby given, That default has been made in the terms and conditions of that certain mortgage, made, executed and delivered by Harry Hedstrom and Sophie Hedstrom, his wife, mortgagors, to the Northern Trust company, a corporation, mortgagee, dated April 8th, 1918, and filed for record in the office of the Register of Deeds of Burleigh county, North Dakota, on the 11th day of May, 1918, at 9 o'clock a. m., and duly recorded in Book 151 of Mortgages, on page 279, and assigned by the said mortgagee to the Fidelity Mutual Life Insurance company, a corporation, of Philadelphia, Pa., assignee of mortgage, on page 287, and that by reason of said default, said mortgage will be foreclosed by a sale of the premises described at the front door of the court house in the city of Bismarck, in the county of Burleigh and state of North Dakota, at the hour of two o'clock in the afternoon on the 19th day of April, 1923, to satisfy the amount due upon such mortgage on the date of sale.

The premises described in such mortgage and which will be sold to satisfy the same, are situated in the county of Burleigh and state of North Dakota, and are described as follows, to-wit: The Southwest quarter (SW 1/4) of Section One (1), in Township One Hundred Forty-one (141) North, of Range Seventy-seven (77), West of the Fifth Principal Meridian, containing 160 acres, more or less, according to the United States Government Survey thereof. There will be due on such mortgage at the date of sale the sum of One Thousand Seven Hundred and 40-100 (\$1,710.40) Dollars, together with the costs and expenses of sale.

Dated this 2nd day of April, 1923.

EVERETT TRUE

BY CONDO

LETTER FROM LESLIE PRESCOTT TO HER YOUNGER SISTER, ALICE HAMILTON

DEAR LITTLE SISTER:

I have just had a letter from Vera Stockley. You know she started for London a day or two after my wedding to join her family.

She tells me that your little friend Betty is writing a book and that it has the weirdest plot which involves a string of pearls. I have an intuition that you two girls have in some way patched up a story about my pearl beads.

You seemed rather surreptitious and mysterious about them when you gave them to me. Now that I have had time to think over them I have become rather curious about them.

Everyone admires them so much. Jack said the other day that they were the loveliest imitations he had ever seen. He makes me wear them on all occasions.

I wore them the other night to a restaurant dinner and a man at the next table eyed me so much that Jack told me he was going over to punch his head up. I called his attention to the fact that the man was not looking at me at all but at my beads.

"That makes it worse," said Jack and I think he would have gone over and jabbed him if the man had not paid his check and left.

Write me all about the circumstances of their purchase. I am sure they were not originally purchased in this country. Jack says they were probably made to imitate a string of real pearls whose owner did not want always to wear her real stones. He says they would be worth a fortune if they were real.

LESLEY HAMILTON PRESCOTT

Tell me about your friend Betty Stockley's book. I'll bet you had a hard time of it, you sly puss.

All the wedding presents came yesterday, including that lovely desk that Jack's mother gave me. Fortunately I had just signed the lease of the duckiest little apartment, and I had all the boxes and barrels delivered there.

Jack is very busy just now as the company has many new contracts on its books, so I am not going to let him see the apartment at all until it is all furnished and ready for us to move in.

As soon as your school is out I want you to come and make us a long visit, little sister.

Tell mother everything came spic-and-span and that my hand is almost well.

I will write her very soon.

Lots of love, dear.

LESLEY HAMILTON PRESCOTT

LETTER FROM LESLIE PRESCOTT TO HER MOTHER-IN-LAW, MRS. MARY ALDEN PRESCOTT.

DEAR MRS. PRESCOTT:

I cannot resist writing you to tell you again how beautiful your lovely desk is that you gave me for a wedding present.

I have made it the one thing in my living room around which I have centered everything.

Jack tells me you wrote him about my hand. Do not worry any more. It is all well now.

I hope you will find it convenient to come and see us very soon and then you will see how beautifully your exquisite desk helps to furnish our little apartment.

Cordially yours,

LESLEY HAMILTON PRESCOTT

ADVENTURE OF THE TWINS

By Olive Barton Roberts

The war in Bing-Bang Land was about over.

When the wooden soldiers rushed in with General Buttons at the head and captured all the tin soldiers, Nancy and Nick, were so surprised they couldn't speak a word at first.

Then Nancy said, "We can't keep our medals now, Nick. We must give them back."

"Why?" asked Colonel Stiff Leg. "Well," explained Nancy, "we got them from the tin soldier general because we had made a mistake. We made Private Buttons into a general when we were mending him. He was only Private Buttons and we thought he was General Gold Braid, and we painted a silver star on his shoulder and he isn't a general at all!"

"Is this true?" asked Colonel Stiff Leg.

"Is this true?" asked Major Starch Front.

"It is indeed true," asked Captain Short Jacket.

"Can it be true?" asked Lieutenant Chin Strap and Sergeant Stripes and Corporal Clothes Pin and Private Ram Rod all together.

Private Buttons hung his head. No, he didn't either, his neck was too stiff, but anyway he tried to.

"Yes, it is true," he admitted. I'm not from the tin soldier general because we had made a mistake. We made Private Buttons into a general when we were mending him. He was only Private Buttons and we thought he was General Gold Braid, and we painted a silver star on his shoulder and he isn't a general at all!"

"Well, what of it? We don't care. You won the war for us," said Colonel Stiff Leg kindly. "We shall have two generals now. And I agree that we owe it all to Nancy and Nick. They may keep their medals for distinguished service."

So everybody was happy again.

Mrs. Langer Gives Party Honoring Mrs. H. O. Wray

Mrs. William Langer of 122 Avenue A entertained at bridge Saturday afternoon complimentary to Mrs. H. O. Wray who expects to leave the city in the near future. Four tables of bridge were in progress during the afternoon. The high score was won by Mrs. O. W. Roberts. The guest, Mrs. Wray, was presented with a token of remembrance by her friends. Decorations were pleasingly carried out in white and yellow, with daisies forming floral decorations about the Langer home. At the close of the game luncheon was served.

Gives Party Honoring Mrs. A. G. Jacobson

Representatives from the Women's Community Council will accompany members of the Association of Commerce on their tour of inspection of the city's streets and roads Wednesday morning at 10 o'clock was decided at their regular meeting held at the Masonic Temple Tuesday afternoon. Reports from various committees of the council were heard. Mrs. P. R. Fields, chairman of the park committee, reported on the work which had been accomplished during the clean up campaign by members of her committee and urged that all organizations that intend to continue their assistance in park and garden work to notify her immediately. The W. C. T. U., the Loyal League, and the D. A. R. have already signified their intention of carrying on their work.

Mother's Club Observes Guest Day

Guest day will be observed at the meeting of the Mother's Social club at the home of Mrs. A. P. Lenhart tomorrow afternoon when Mrs. Price Owens, Mrs. Raymond Bergeson, Mrs. Woodmansee and Mrs. Lenhart will be hostesses. Roll call will be responded to with brief talks on "Motherhood." An interesting part of the program will consist of a reading by Mrs. D. T. Owens from the "Passion Play."

PLAN ALUMNI BANQUET

Plans are under way for the annual reunion of alumni of Bismarck high school. The reunion will be held at the McKensie hotel, May 25.

BRIDAL COUPLE HERE

LEAVE FOR CHICAGO

Guest champions and George Kasten last night for Chicago, Ill., where they will make their home in the future. They have resided in Bismarck for the past four years.

RETURNS FROM BUYING TRIP

Robert B. Webb returned last night from Minneapolis, Minn., and Chicago, Ill., where he has been purchasing furniture for the expanded furniture department.

VISITED PARENTS

George Reuter, a Johnson spent the week end as the guest of his parents, Mr. and Mrs. John Reuter.

WEEK END VISITORS

Mr. and Mrs. H. O. Batzer of Hazelton spent Saturday and Sunday in the capital city.

SERIOUSLY ILL

Engwald Bakke, 85, father of Mrs. D. McPhee, is seriously ill at the home of his daughter.

BUSINESS CALLER

Willis Wound of Wing was a business caller in Bismarck over the week end.

MRS. BURTON ILL

Miss Mary Burton of 219 Third Street is confined to her home by illness.

Spends Good Night

Atty. Theo. Koffel, who is under treatment at the Bismarck hospital, is reported to have rested well last night.

Announce Birth

Mr. and Mrs. William Seuss of Krem announce the birth of a baby girl at the St. Alexius hospital yesterday.

Bismarck Hospital

Dolt Hetland, city; Ben C. Ryppehus, city; Mrs. A. E. Rash, New Salem; Elva Ziesler of Dodge, and Mrs. Paul Hjelmsmeth of Mandan have entered the Bismarck hospital for treatment. Donald Truax of Steele.

TAILOR-MADE GIRL STAGES A SNAPPY COMEBACK

THE UP-TO-DATE TAILOR-MADE GIRL—THREE TYPES OF HER—SHOWING HOW SHE'S (CROSSED) THE SEVERELY-CUT SUIT OF A SEASON OR TWO AGO WITH THE POPULAR SPORTS MODEL, AND SETTING A RESULT SHE'S ENTITLED TO FEEL PROUD OF

By Marian Hale

We welcome back the tailor-made girl.

We haven't seen much of her for a season or so.

Her sketchy sister with flowing panels and wrappy coats succeeded in getting her quite into the back ground.

But she refuses to stay there.

She cleverly crossed the severely tailored suit with the popular sports model and achieved a result that retains the best qualities of both.

Good Figures Searched

Probably it was, cosmetic-sneez which ended the vogue of the severe tailor-made. It isn't seen to advantage except on good figures, and good figures are the exception these days.

The sports costume always had the comfort and color that the tailor-made lacked, but it never attained the severe style's trimness and neatness.

The new sport tailleur possesses all these qualities.

It's appropriate for business, street or sports wear. It's neither too conspicuous, nor too plain.

St. Alexius Hospital

Charles Reynolds of city, Master William Cowley of city, Mrs. Adolph Schanowski, of city, and Mrs. Carl Schaller of Beulah have entered the St. Alexius hospital for treatment. J. F. Calderhead of city, Master Frank Fox of Ellsworth, Miss Elsie Carlson of Hallday, Miss Alice Cary of Mandan, Mrs. Thomas Fitzmaurice of Mohall, Mrs. Jacob Herr of Glen Ullin, Miss Evelyn Bonnes of Lefor, Mrs. P. H. Thordahl of city, Mrs. G. A. Bietz of Ashley, and Miss Eva Irvine of Linton, have been discharged from the hospital.

AT THE MOVIES

CAPITOL

"Classic literature and drama will ever be a productive field for the motion picture producer," says Rex Ingram, the latest Met production, "Trifling Women."

It is probable that the present tendency toward a preference for modern, well knit, vital stories will result in a preponderance of that type of picture. It is nevertheless true that the classics will continue

to be drawn upon by directors who have ambitions to deal with great subjects in a great way.

"There are two logical reasons for this. In the first place, the story or drama which has survived the test of time has, by virtue of that fact, demonstrated that there is something in its theme or treatment which has a universal appeal something that is greater than the ever changing currents of a temporary popularity. In the second place, there is a tremendous fascination for the director in taking story and characters that are known to hundreds of thousands of people and attempting to make that story and those characters live on the screen in such a way that he will win the approval of his public.

"Such a task may well fill the heart of the most able director with occasional misgivings. During the production of the four hour version of the 'Snow White' I was confident that the picture, as it was being developed, was fairly close to the author's conception in regard to theme, characterization and emphasis. And yet there was always the fear that the great mass of people who had read the book might expect to see the picture different enough from the one that I felt was the most logical presentation of the story that they would be disappointed. Happily my fears were groundless, as such fears are likely to be if a director approaches his task with honesty and vision and sincerity.

"And for these reasons I believe that producers and directors will continually turn to the classics for material, and for the further reason that in them is to be found a full bloodedness, a vitality, a fundamental strength which gives them a universality of interest in every generation."

"Trifling Women" was written, adapted and directed by Rex Ingram. In the cast are Ramon Novarro, Barbara La Marr and Lewis Stone. The photography is the work of John V. Seitz. Starrett Ford was production manager.

THE ELTINGE

All African romance does not necessarily occur under the tent of the sheik or out on the burning sands. Romance is also found in the south of that continent with its dense jungles, savage tribes, and wild beasts.

The latest Paramount production, "Drums of Fate," starring May Miller, Minter, gives you the opportunity of seeing a new romance. Now not in character but rather in setting. This picture shows at the Eltinge Tuesday and Wednesday.

The jungles hold more romance and interest than any of the natives of the jungles, their feasts and hunting expeditions, all are shown in this great production.

The favorite sport of the natives according to the production, seems to be attacking the satirists of white men coming into their territory in search of gold, and they are some fighters to be sure.

In the cast supporting Miss Minter are the well known character actors, George Fawcett, Robert Cain, Bertram Grassby, Lefty Flynn and Casson Ferguson.

PRIZE ESSAY

The essay written by Winnifred Ellithorpe of the sixth grade at Right school on "The use of our native trees, shrubs, and plants in beautifying our homes and our city," which was awarded first prize by the Association of Commerce reads as follows:

Altho I am but a little girl, my mind goes forward to the near future when I am to be a woman, and have a home of my very own, which I would plan with the aid of our native trees, shrubs, and plants to make the pride of our city.

Given a cottage of medium size in this town, my interest would center on its near surroundings, and around living plants and things to give my home the first breath of life in the spring time, and reaching branches to remind me in the drear of the year of the beauty I had helped to create.

How tenderly would I nurse the little seedlings grown from our native grasses that went to form my lawn, how well and deep would I place the roots of the trees which were to shade my home, preferably the elm or the oak, altho many might prefer the ash, poplar or birch.

Say It With Flowers
On Mother's Day
Sunday, May 13th
The people of all nations have set aside this day each year in her honor.
MAKE IT HER HAPPIEST.
Place your order early while we still have the wonderful selection of our own roses, carnations, tulips, sweet peas and daisies.
Why not send her one our baskets of cut flowers.
For the younger mother a corsage.
HOSKINS-MEYER

any of which do well in our state and none of which would we care to see become crowded out.

My next thought would be to border my little domain with a hardy, some hedge well chosen for its blossoms and foliage from among the families of the common mustard family, silver chrysanthemum, and the like. The first three I would reserve to decorate my lawn with their beaut.

Flowers and vines in abundance would I have about my home, great bowers of woodbine, clematis, and columbine, to grace my porches, and shade my windows from the sun, which with a bit of its coolness for an arbor, purple shadows mixed with green, forming a perfect background for a prim flower bed, all wild roses and golden rods at the rear, giving way to wild asters, blue hills, peonies, spider lilies, deeply bordered with the yellow violet.

In my gardens, as large as I could dare to claim, I would prepare a lawn, rich, black, and deep, one half of which would be devoted to small fruit trees and bushes from which I would like to tempt my family's appetite with yellow, jam, sauce, butters, ples and preserves. Long rows of daisies, carnations, and wild, goose berries, huckleberries, choke cherries, and cherries, plums and raspberries, would hold forth, all of which would surely gladden any one in the spring time with their millions of sweet smelling blossoms.

Tucked away in one protected corner of this garden, there would be a place for native plants fitted for medicinal purposes, God's own remedies such as the common mustard which is not only good for table use, but also in many ways, also, the common hedge nettle, the tea of which is good for hemorrhages, the yarrow root, in a tea for tonics and indigestion; horse radish, good for a cold and for rheumatism.

plantain, growing wild on the prairie, is good for burns, common flax good for a dozen purposes, poultices for one; dandelion, good for tonics jaundice and so forth; night shade, good for colds; and winter green good for fevers, and rheumatism.

Carefully over my work I would go, filling in the shady places with blues at the valley, blue violets, and silver berries, and hot, unproductive spots with the noted cactus with its beautiful blossom of delicate pink, and cream.

The many hours of labor required to fulfill my dream home, would soon be forgotten in the enjoyment of its fruits and perhaps other seeing my efforts would gain courage and do likewise.

Bismarck Chapter No. 10 will meet Tuesday evening May 8 at 8 p. m. Degree work. All are urged to be present.

The cost of food folly

The cost of your food mistakes is not in dollars and cents alone, but in years of suffering from indigestion—and that means low vitality with little strength to resist disease. Cut down the high protein foods, avoid potatoes and sweets for a while, and get down to a simple diet of Shredded Wheat Biscuit with green vegetables and fruits, and see how much better you feel. Shredded Wheat is all food. It is the whole wheat in a digestible form. Two Biscuits with milk or cream make a complete, nourishing meal that costs but a few cents.

TRISCUIT is the Shredded Wheat cracker—a real whole wheat toast—eaten with butter, soft cheese or marmalades. A free sample of Shredded Wheat with our new booklet, "The Happy Way to Health," is sent free on request.

GIVES PARTY

Mrs. Birela O. Ward of 300 Avenue C entertained the ladies of the Benedict Bridge Club Saturday afternoon in honor of Mrs. A. G. Jacobson of Bemidji, Minn., a former member of the club. A social afternoon was held in evening. Mrs. Helen Goss of Mandan was an out-of-town guest at the party. At 5 o'clock luncheon was served.

B. & P. W. MEETING

The Business and Professional Women's club will hold a special meeting tomorrow evening, May 8, in the club rooms. The purpose of this meeting is to make final arrangements for the delegates and representatives from the club, who expect to attend the state convention at Jamestown, May 11-12.

EPISCOPAL GUILD MEETING

The Episcopal Guild will meet Friday afternoon at 3 o'clock at the Parish House on Third Street. As important business is to come up before this meeting all members are urged to be present.

GIVE ANNIVERSARY DINNER

Mr. and Mrs. Roy D. Kennelly entertained members of their immediate family at a 1:30 o'clock dinner yesterday in honor of their first wedding anniversary. Covers were laid for sixteen guests.

AMONG CITY VISITORS

F. A. Conaghan of Burnstead, Rod Allen of Carson, Mr. and Mrs. G. H. Aker of Leonard, H. J. Wald and M. J. Bonas of Strasburg were among the city visitors yesterday.

TIED AND DYED SILKS AGAIN FOR MODERN NEGLIGEEES

TIED AND DYED SILKS AGAIN FOR MODERN NEGLIGEEES

The new tied and dyed silks are used for modern and fashionable underwear and negligees. They are shown in all the smart shops in lovely colors. If you incline to experiment these are easy to begin with. You tie the length of crepe de chine or georgette into hard knots. The hardest possible knots. Then dye the fabric. Then untie the knots and behold—the most bizarre and beautiful results. Illustrated are two of the new step-in combination designed to accompany low-waisted frocks.

Gives Party Honoring Mrs. A. G. Jacobson

Representatives from the Women's Community Council will accompany members of the Association of Commerce on their tour of inspection of the city's streets and yards Wednesday morning at 10 o'clock when they will meet at the Masonic Temple for the afternoon.

Reports from various committees of the council were heard. Mrs. P. R. Fields, chairman of the park committee, reported on the work which had been accomplished during the clean up campaign by members of her committee and urged that all organizations that intend to continue their assistance in park and garden work to notify her immediately. The W. C. T. U., the Epiphany club, and the D. A. R. have already signified their intention of carrying on their work.

A report from the child welfare committee stated that 7,425 half-pints of milk had been distributed to the school children who would otherwise have had to go without milk, at a cost of \$185.63.

Mrs. Edward Bannan of the Infant Welfare committee presented to the council the plans which had been made for Infant Welfare week which begins May 8.

Mrs. John Graham in behalf of the Thursday Musical club asked the cooperation of the members of the Community Council in putting on their annual concert, May 15.

Mrs. H. F. Keller, chairman of the committee in charge of the juvenile welfare work among the girls during the summer, stated that a total of 50 girls had joined the short course class in playground direction and would take active charge of the playgrounds this summer, but stated that a number of older women were needed to act as advisors to the girls at the playgrounds. She also asked that any residents who had croquet or tennis paraphernalia which they no longer used to notify Mrs. Keller.

She urged that any woman of the city who could devote either one morning or one evening a week to helping in this work during the summer would be giving all the assistance that was required.

Mrs. H. C. Postlethwaite, chairman of the friendly visiting committee which works in conjunction with the social worker reported on the work which was being done by members of the committee.

At the conclusion of the business meeting Miss Cashed, social worker, who recently arrived to take the place left vacant by Miss Elsie H. Lawrence, spoke briefly on her plans for carrying on her work in Bismarck and declared that she felt that her work would be a wonderful success with such an organization as the Community Council cooperating and aiding all her undertakings. She said that a friendly visiting committee was one of the best assets that a social worker could have and declared that their motto "Not alone but a friend," inspired that they had caught the spirit or the work in which they were engaged.

GIVES PARTY
Mrs. Birlea O. Ward of 300 Avenue C entertained the ladies of the Benedict Bridge Club Saturday afternoon in honor of Mrs. A. G. Jacobson of Bemidji, Minn., former member of the club. A social afternoon was held in sewing. Miss Helen Hoppen of Mandan was an out-of-town guest at the party. At 5 o'clock luncheon was served.

B. & P. W. MEETING.

TAILOR-MADE GIRL STAGES A SNAPPY COMEBACK

THE UP-TO-DATE TAILOR-MADE GIRL—THREE TYPES OF HER—SHOWING HOW SHE'S CROSSED THE SEVERELY CUT SUIT OF A SEASON OR TWO AGO WITH THE POPULAR SPORTS MODEL, AND SECURED A RESULT SHE'S ENTITLED TO FEEL PROUD OF.

By Marian Hale
We welcome back the tailor-made girl.

We haven't seen much of her for a season or so.

Her sketchy sister with flowing panels and wrappy coats succeeded in getting her quite into the background.

But she refuses to stay there. She cleverly crossed the severely tailored suit with the popular sports model and achieved a result that retains the best qualities of both.

Good Figures Secure
Probably it was coarseness which ended the vogue of the severe tailor-made. It isn't seen to advantage except on good figures and good figures are the exception these days.

The sports costume always had the comfort and color that the tailor-made lacked, but it never attained the severe style's trimness and neatness.

The new sport-tailleur possesses all these qualities. It's appropriate for business, street or sports wear. It's neither too conspicuous nor too plain.

Belt Is Variable
The belt may eliminate itself entirely, or it may select practically any parking place between waist and hips. Or it may be wide, and finish the jacket in a hand or cuff. But the commonest place for it is at the normal waistline.

Materials are flannel, jersey, tricotee, kasha cloth, twill and the new knitted fabrics of wool, silk and silk-wool, woven together.

Such suits as those shown in the picture are the last word in style. They're bound to come in for a good share of attention.

St. Alexius Hospital.
Charles Reynolds of city, Master William Cowley of city, Mrs. Adolph Scharnowski, of city, and Mrs. Carl Sailer of Beulah have entered the St. Alexius hospital for treatment. J. F. Calderhead of city, Master Frank Fox of Elbowoods, Miss Elsie Carlson of Halliday, Miss Alice Cary of Mandan, Mrs. Thomas Fitzmaurice of Mohall, Mrs. Jacob Herz of Glen Ulin, Miss Evelyn Bonnes of Lefor, Mrs. P. H. Throddahl of city, Mrs. G. A. Bietz of Ashley, and Miss Eva Irvine of Linton, have been discharged from the hospital.

AT THE MOVIES
CAPITOL
"Classic literature and drama will ever be a productive field for the motion picture producer," says Rex Ingram, whose latest Metro production, "Trifling Women," is now at the Capitol theater. "While it is probable that the present tendency toward a preference for modern, well knit, vital stories will result in a preponderance of that type of picture, it is nevertheless true that the classics will continue

to be drawn upon by directors who have ambitions to deal with great subjects in a great way.

"There are two logical reasons for this. In the first place, the story or drama which has survived the test of time has, by virtue of that fact, demonstrated that there is something in its theme or treatment which has a universal appeal, something that is greater than the ever changing currents of a temporary popularity. In the second place, there is a tremendous fascination for the director in taking story and characters that are known to hundreds of thousands of people and attempting to make that story and those characters live on the screen in such a way that he will win the approval of his public.

"Such a task may well fill the heart of the most able director with occasional misgivings. During the production of 'The Four Horsemen of the Apocalypse' I spent many a sleepless night. I was confident that the picture, as it was being developed, was fairly close to the author's conception in regard to theme, characterization and emphasis. And yet there was always the fear that the great mass of people who had read the book might expect to see the picture different enough from the one that I felt was the most logical presentation of the story that they would be disappointed. Happily my fears were groundless, as such fears are likely to be if a director approaches his task with honesty and vision and sincerity.

"And for these reasons I believe that producers and directors will continually turn to the classics for material, and for the further reason that in them is to be found a full bloodedness, a vitality, a fundamental strength which gives them a universality of interest in every generation.

"Trifling Women" was written, adapted and directed by Rex Ingram. In the cast are Ramon Novarro, Barbara La Marr and Lewis Stone. The photography is the work of John F. Seitz. Starrett Ford was production manager.

THE ELTINGE
All African romance does not necessarily occur under the tent of the cheetah or out on the burning sands. Romance is also found in the south of that continent with its dense jungles, savage tribes and wild beasts.

The latest Paramount production, "Drums of Fate," starring Mary Miles Minter, gives you the opportunity of seeing a new romance. Not in character but rather in setting. This picture shows at the Eltinge Tuesday and Wednesday.

The jungles hold more romance and interest than any of the deserts. The everyday life of the natives of the jungles, their feasts and hunting expeditions, all are shown in this great production.

The favorite sport of the natives according to the production, seems to be attacking the safaris of white men coming into their territory in search of gold, and they are some fighters to be sure.

In the cast supporting Miss Minter are the well known character actors, George Fawcett, Robert Cain, Bertram Grassby, Lefty Flynn and Casson Ferguson.

PRIZE ESSAY
The essay written by Winifred Ellithorpe of the sixth grade at Richwood school on "The use of our native trees, shrubs, and plants in beautifying our homes and our city," was awarded first prize by the Association of Commerce reads as follows:

Altho I am but a little girl, my mind goes forward to the near future when I am to be a woman, and have a home of my very own, which I would plan with the aid of our native trees, shrubs, and plants to make the pride of our city.

Given a cottage of medium size in this town, my interest would center on its near surroundings and grounds, living plants and things to give my home the first breath of life in the spring time, and reaching branches to remind me in the drear of the year of the beauty I had helped to create.

How tenderly would I nurse the little seedlings grown from our native grasses that went to form my lawn, how well and deep would I place the roots of the trees which were to shade my home, preferably the elm or the oak, altho many might prefer the ash, poplar or birch

The latest Paramount production, "Drums of Fate," starring Mary Miles Minter, gives you the opportunity of seeing a new romance. Not in character but rather in setting. This picture shows at the Eltinge Tuesday and Wednesday.

The jungles hold more romance and interest than any of the deserts. The everyday life of the natives of the jungles, their feasts and hunting expeditions, all are shown in this great production.

The favorite sport of the natives according to the production, seems to be attacking the safaris of white men coming into their territory in search of gold, and they are some fighters to be sure.

In the cast supporting Miss Minter are the well known character actors, George Fawcett, Robert Cain, Bertram Grassby, Lefty Flynn and Casson Ferguson.

PRIZE ESSAY
The essay written by Winifred Ellithorpe of the sixth grade at Richwood school on "The use of our native trees, shrubs, and plants in beautifying our homes and our city," was awarded first prize by the Association of Commerce reads as follows:

Altho I am but a little girl, my mind goes forward to the near future when I am to be a woman, and have a home of my very own, which I would plan with the aid of our native trees, shrubs, and plants to make the pride of our city.

Given a cottage of medium size in this town, my interest would center on its near surroundings and grounds, living plants and things to give my home the first breath of life in the spring time, and reaching branches to remind me in the drear of the year of the beauty I had helped to create.

How tenderly would I nurse the little seedlings grown from our native grasses that went to form my lawn, how well and deep would I place the roots of the trees which were to shade my home, preferably the elm or the oak, altho many might prefer the ash, poplar or birch

any of which do well in our state and none of which would we care to see become crowded out.

My next thought would be to border my little domain with a hedge of some hedge well chosen for its blossoms and foliage from among the hardiest of our native plants, holly, silver birch, evergreen, currant, fir, tree, yew, and the snow ball. The latter three I would reserve to decorate my lawn with their beauty.

Flowers and vines in abundance would I lovingly plant about my home, great howers of woodbine, clematis, and Columbine, to grace my porches, and shade my windows from the sun, which with a bit of the wild grape might lend its coolness for an arbor, purple shadows mixed with green, forming a perfect background for a prim flower bed, tall wild roses and golden rods at the rear, giving way to wild asters, blue bells, yucca's, spider lilies, deeply bordered with the yellow violet.

In my gardens, as large as I could dare to claim, I would prepare a lawn, rich, black, and deep, one half of which would be devoted to small fruit trees and bushes from which I would like to tempt my family's appetite with jellies, jams, sauces, butters, pies and preserves; here long rows of native currants (stems and wild), goose berries, buffalo berries, choke cherries, and cherries, plums and raspberries, would hold forth, all of which would surely gladden any one in the spring time with their millions of sweet smelling blossoms.

Tucked away in one protected corner of this garden, there would be a place for native plants fitted for medicinal purposes, God's own remedies, such as the common mustard which is not only good for table use but for colds in many ways also; the common hedge nettle, the tea of which is good for hemorrhages, the common tansy, nice for tonics and indigestion; horseradish, good both for the table and for rheumatism.

plains, is good for burns, common flax good for a dozen purposes, poultices for one; dandelion, good for tonics jaundice and so forth; night shade, good for colds; and winter green good for fevers, and rheumatism. Carefully over my work I would go, filling in the shady places with lilies of the valley, blue violets, and silver berries, and hot, unproductive spots with the nated cactus with its beautiful blossom of delicate pinks and cream.

The many hours of labor required to fulfill my dream home, would soon be forgotten in the enjoyment of its fruits and perhaps after seeing my efforts would gain courage and do likewise.

Bismarck Chapter No. 10 will meet Tuesday evening May 8 at 8 p. m. Degree work. Members urged to be present.

Say It With Flowers On Mother's Day

Sunday, May 13th

The people of all nations have set aside this day each year in her honor.

MAKE IT HER HAPPIEST.

Place your order early while we still have the wonderful selection of our own roses, carnations, tulips, sweet peas and daisies.

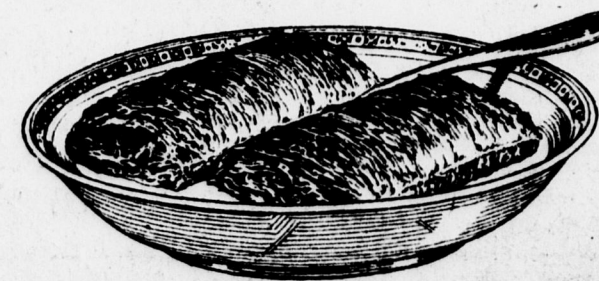

Why not send her one our baskets of cut flowers.

For the younger mother a corsage.

HOSKINS-MEYER

The cost of food folly

The cost of your food mistakes is not in dollars and cents alone, but in years of suffering from indigestion—and that means low vitality with little strength to resist disease. Cut down the high protein foods, avoid potatoes and sweets for a while, and get down to a simple diet of Shredded Wheat Biscuit with green vegetables and fruits, and see how much better you feel. Shredded Wheat is all food. It is the whole wheat in a digestible form. Two Biscuits with milk or cream make a complete, nourishing meal that costs but a few cents.

TRISCUTT is the Shredded Wheat cracker—a real whole wheat toast—eaten with butter, soft cheese or marmalades. A free sample of Shredded Wheat with our new booklet, "The Happy Way to Health," is sent free on request.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

SOME CONVINCING FIGURES

Public sentiment on the water issue is crystallizing fast and it is earnestly desired that a record vote register the decision at the polls next Monday. Everyone interested in the future of Bismarck should vote and give the commission power to bring order out of the present chaos.

The disposition of the city commission to provide a power plant in connection with the new proposals for a city owned water system is wise in the extreme and is winning additional support to their plans daily.

Figures presented in this issue of The Tribune show conclusively that a great saving can be made in the use of oil driven engines to pump the water thus relieving the city commission of entering into a contract that might tie their hands in the fixing of a fair rate to the people of Bismarck.

The article also touches upon the possibility of using the same plant for street lighting, and for lighting the schools and other public buildings in Bismarck.

When a local industry can cut its monthly bill for power from \$1,600 to slightly more than \$300 a month, the city commission is justified in making provision to save the water consumers on this item of expense.

There is some confusion on the general issues. Whether the city commission purchases the present plant or builds a new one, the bond election is necessary. While the city commission desires to buy the present plant at it can be purchased at a just figure, it desires in any event to take steps to provide an adequate water supply for this thriving city which has a great destiny before it, provided these issues are settled undisturbed by private interests whose profits may be disturbed but the city generally benefited and put in a position to progress more rapidly.

The settlement of the water problem is the great issue before the people now and during the next week, every citizen should acquaint himself with the facts. Bismarck's future, the health and happiness of its citizens are involved in the settlement of this problem and if surface indications can be relied upon the people will speak most emphatically next Monday.

In any event, the people will demand a complete city owned and city controlled water plant whose management none but the elected representatives of the people can control—that means city ownership of every unit and agency used in delivering water to the consumers of Bismarck.

A RAT'S TALE

You read "Pigs in Pigs," of course, and laughed. Here's a true case, something along the same line. The late Lord Moulton was a high executive of the British government during the war. His son publishes a book about the old man's career, and says that after he retired from public life he used to amuse himself by re-reading some of the more glaring instances of the amount of work which could be devoted to the most trivial matters.

Lord Moulton sat and haw-hawed for hours over the British official documents known as the Great Rat Correspondence.

The total of these documents looks like a report by one of our Congressional investigating committees. A few of them give you the general idea. First sample:

With reference to B. M. Q. M. G. 7, 11683, twelve special rats were obtained for the Chemical Shell Store, and authority is now requested please for an expenditure of 3 pence per week per rat for maintenance, as besides being kept alive they must always be in good condition to satisfactorily serve the purpose for which they were provided.

After passing through various hands and accumulating a raft of departmental comments, this official answer was received:

No objection to necessary expenditure within 3 pence a week a rat. We have no information as to cost, but should have thought it might be less. You no doubt will take steps to see that the establishment is not unduly increased.

As months slipped by and the great war raged, correspondence concerning the rats kept piling up, increasingly more complicated. As, for instance, this prize specimen:

Noted, 12 rats were originally purchased, but the stock shortly increased to 34, of which 6 were sent to a Trench Warfare Filling Factory and 3 destroyed, leaving a total of 25. In view of the Chemical Shell Store at Gatwick shortly opening, it would be a pity to destroy these rats, as at least a dozen will be required for Gatwick. It is therefore considered necessary to keep a stock of 30 rats at Woolwich and Gatwick, i. e., 18 Woolwich (including reserve of 6) and 12 at Gatwick. Any surplus above this number will be sold, if possible, and profit credited to the Rat Fund, or else destroyed. Authority is requested for the above establishment to be maintained.

It cost England thousands of dollars to keep track of these rats. The correspondence is typical of the procrastination and stupidity of our own Red Tape Worms in Washington. Since most governmental matters are handled in the same spirit in most countries, governmental delay and bone-headedness are proverbial.

However, you find the same thing in many large corporations where "system" and "efficiency" have accumulated until the corporation resembles a cat after playing with two miles of yarn.

And, for that matter, most of us don't have to go outside our personal lives to find "glaring instances" of the amount of work which can be devoted to the most trivial matters.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that readers may have both sides of important issues which are being discussed in the press of the day.

SENATOR NELSON'S SUCCESSOR

The death of Senator Nelson nearly two years before the end of his term creates a situation which, while not unprecedented, is unusual. The law imposes upon the Governor the duty of temporarily filling the vacancy by appointment, until it can be regularly filled at the next general election in November, 1924.

Governor Preuss is himself the man who should be appointed, since he is the man who, so far as can now be determined, will be re-nominated for the place by the dominant party of the State. He is the man whom Senator Nelson most desired to see as his own successor. He is the strong man of the Republican Party in Minnesota. He has twice been elected Governor, the last time in the face of a wide movement of revolt that carried down to defeat other leaders like Senator Kellogg. If an election could be held next week, there isn't much doubt that J. A. O. Preuss would be chosen Senator. Then there is the situation at Washington. By death and defeat Minnesota has lost her commanding position in the Senate. She needs to send to Washington as the junior Senator next December a strong, forceful man. That, of course, is Governor Preuss.

Were the Governor to make merely a stop-gap appointment, were he to use the appointment merely to confer a temporary honor on some one who would not be a candidate for election in 1924, he would delay by two years the work of regaining for Minnesota her high place in the Senate and the councils of the Nation.

The delicate political balance of the new Senate is an important consideration, too. The forces of conservatism and conservatism as Minnesota really believes in, need reinforcement so as to close up the breach left by Senator Nelson's death.

What, then, stands in the way? Purely personal considerations—the natural hesitancy of Governor Preuss to bring about his own advancement by resignation and by acceptance of the duty of appointing his successor, Lieutenant Governor Collins. This hesitancy does the Governor credit, but in the face of the growing and wide sentiment throughout the State, it should not stand in the way of the only proper solution.

Especially is this true, since Mr. Collins has demonstrated his entire fitness to serve well as Governor, and since he enjoys wide popular esteem and affection, which have in a way acclaimed him for election in 1924.

Moreover, with the adjournment of the Legislature the most important part of the work for which Governor Preuss was elected has been done and there will be no other regular session during the remainder of the term. And if Mr. Collins were to succeed to the Governorship in this manner, he would really have no option but to pursue the course laid out for him by the circumstances of the case.

If there are political risks involved in this course of action for either Governor Preuss or Lieutenant Governor Collins, they should be taken, because the logic of the situation demands that the Governor should step into the shoes of his dead mentor and friend.

We verily believe that such a decision will be generally approved by the people of Minnesota. Minneapolis Herald.

ARE THEY INCOMPETENT?

It was Frazier, the Nonpartisan League who claims to be state chairman of the Republican party, proposes that the editors of farmer and labor papers throughout the state chip in ten dollars a month or so to have John Andrews, late editor of the Fargo Courier-News, write their editorials for them, the weekly batch of editorials running through all the subscribing papers. John is a very capable writer, but what grievance has Frazier against the present editors of the farmer and labor papers? Are they incompetent, negligent, or are they for any other reason failing to set forth the principles of the League in their columns? Grand Forks Herald.

A THOUGHT

There is no remembrance of former things; neither shall there be any remembrance of things that are to come with those that shall come after.—Eccles. 1:11.

And when he is out of sight, quickly he is out of mind.—Thomas a Kempis.

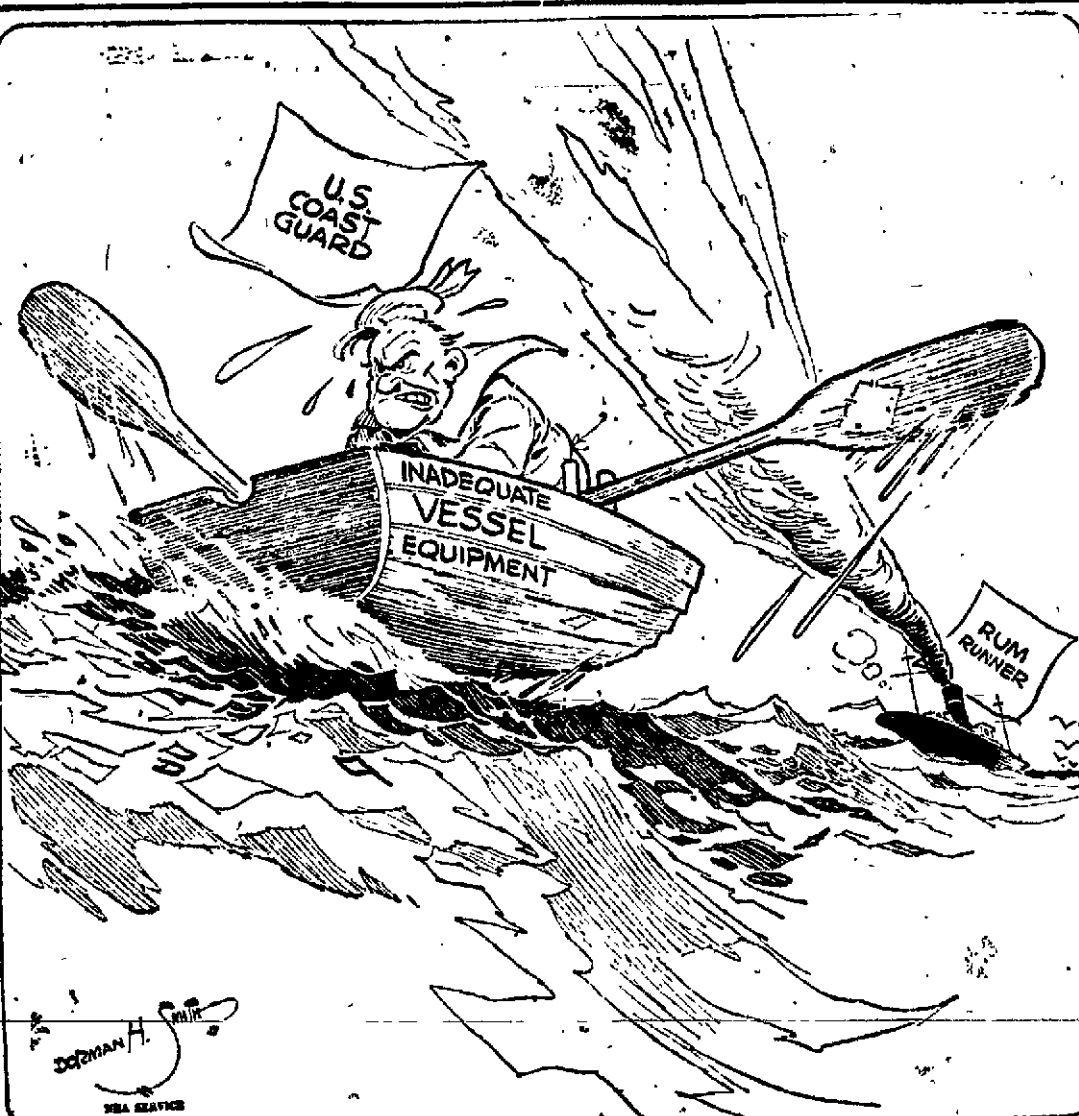

GIRLS! MAKE UP
A LEMON CREAM

Lemons Beautify and Whiten Skin; also Bleach Tan, Freckles

Mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents, shake well in a bottle, and you have a whole quarter-pint of the most wonderful skin softener and complexion beautifier. Massage this sweetly fragrant lemon cream into the face, neck, arms and hands, then shortly after the youthful beauty, softness and whiteness of your skin.

Famous stage beauties use this harmless lemon cream to bring that velvety, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

THE GREAT AMERICAN HANDICAP RACE

MANDAN NEWS

Early Resident of District Dies

Mrs. Bertina Rasmussen, aged 60, pioneer resident of the Sims district, died Friday afternoon after a long illness with Bright's disease. The deceased came to Sims district 20 years ago with her husband who died about eight years ago. Following his death Mrs. Rasmussen went to Minneapolis, Minn., where she lived until a couple of years ago, returning and making her home here. She had been an invalid for several years. One daughter, age 13 survives. Funeral services were held from the Sims church today.

Encephalitis Claims Child

Encephalitis lethargica, sleeping sickness, claimed another victim late Friday afternoon when Esther, three year old daughter of Mr. and Mrs. E. A. Strom of Hazen, succumbed to the malady. The child was brought here to the Deaconess hospital on Wednesday in such serious condition she could not respond to the serum treatment. The body was taken to Hazen and the funeral services held there on Sunday. Mr. Strom, the father, is a barber at Hazen.

The marriage of Miss Gladys H. Klier and Max Kalweit, both of Mandan, took place at the Lutheran parsonage near Rosburg at 8 o'clock last Monday. Rev. Boudreau officiated. The couple was attended by Mr. and Mrs. Ott Kalweit.

Mrs. C. C. Atkinson who has been a guest for several days at the home of Mr. and Mrs. Ralph Keller in Fargo returned home Sunday.

NOTICE OF MORTGAGE FORECLOSURE SALE

Notice is hereby given, That default has been made in the terms and conditions of that certain mortgage made, executed and delivered by Harry Hedstrom and Sophia Hedstrom, his wife, mortgagors, to the Northern Trust company, a corporation, mortgagee, dated April 8th, 1918, in and to said company, which said mortgage is recorded in Book 151 of Mortgages, on page 270, and assigned by the said mortgagee to the Fidelity Mutual Life Insurance company, a corporation, of Philadelphia, Pa., by assignment in writing dated the 9th day of May, 1918, which said assignment was filed for record in the office of the Register of Deeds of said Burleigh county, North Dakota, on the 24th day of May, 1918, at 9 o'clock a. m., and duly recorded in Book 151 of Mortgages, on page 287, and that by reason of said default, the undersigned, J. E. McCurdy, Attorney for the mortgagee, has declared the entire amount secured by said mortgage due, and the same is now due and payable, and said mortgage will be foreclosed by sale of the premises in such mortgage and hereinafter described at the front door of the court house, in the city of Bismarck, in Burleigh county, North Dakota, at the hour of two o'clock in the afternoon on the 10th day of May, 1923, to satisfy the amount due upon such mortgage on the date of sale.

The premises described in such mortgage and which will be sold to satisfy the same, are situated in the county of Burleigh and state of North Dakota, and are described as follows, to-wit: The Southwest quarter (SW 1/4) of Section One (1), in Township One Hundred Forty-one (141) North, Range Seventy-seven (77) East of the Fifth Principal Meridian, containing 160 acres, more or less, according to the United States Government Survey thereof. There shall be due on such mortgage at the date of sale the sum of One Thousand Seven Hundred Eleven and 40/100 (\$1,711.40) Dollars, together with the costs and expenses of sale.

Dated this 2nd day of April, 1923.
THE FIDELITY MUTUAL LIFE INSURANCE COMPANY,
A Corporation of Philadelphia, Pa.
Assignee of Mortgage.

BIG LEAGUES THRILLED BY CLOSE RACES

Teams Are Well Bunched After 19 Days of Playing Baseball Schedule

Chicago, May 7.—During the first of the week, as play the races in both major baseball leagues have disclosed, better competition all down the line than in most seasons.

There were only four places in the American League when play started today one team was in first, two in second, one in third and four tied for fourth, and three tied for third in the National League.

So despite the loss to the Philadelphia Athletics, "the sensation team of the season," before 50,000 persons the New York Yankees managed to start on a road trip in first place as both Detroit and Cleveland lost. By defeating Boston 4 to 1, Washington became level with the Red Sox and enabled Chicago, which won its third straight from Detroit, 4 to 5, and St. Louis which won from Cleveland 5 to 4 to go into a four cornered tie for fourth place.

Chicago and Pittsburgh both lost ground in the National League by losing while New York and Boston were idle. Through its victory over the Cubs, 16 to 4, St. Louis went into a tie for third place with Pittsburgh, which lost to Cincinnati, 8 to 7. Brooklyn made a motion toward getting out of the cellar by downing Philadelphia, 7 to 4.

Roger Hornsby, leading major league home run hitter last year, made two circuit swats, bringing his total to four this season, and Charlie Grimm, Pirate first sacker hit safely, keeping his consecutive record for the season clear. He now has hit in the 19 games played this season.

How Tommy Armour, the Golfer, Hit Homer At Polo Grounds

TOMMY ARMOUR

BY BILLY EVANS.

New York, May 7.—Tommy Armour, one of Scotland's best golfers, now located in this country, is an enthusiastic baseball fan.

For several years Armour has spent much of his time at the Westchester-Biltmore club, New York. When golfing permits, Armour likes himself to the Polo Grounds.

Carl Mays, star pitcher of the New York Yankees, is a personal friend of Armour. Incidentally, Carl aside from being some pitcher is a bit of a golfer.

In golf circles Armour is known as one of the longest hitters in the game. He takes a healthy cut at the little white ball and gets Babe Ruth distance in his drives.

Thought It Easy.
While Armour has never played baseball, he had a wild idea that it was no great task to hit the ball as delivered by big league pitchers.

One day he confided his belief to Mays, who invited him out to the Polo Grounds to make good his opinion.

Mays did the pitching, Armour the batting and a number of the Yankee players who had been let in on the secret formed the gallery. From

Kinks o' the Links
by "PRO"
Player gets off a rather poor tee shot and feels that his ball has gone out of bounds. He elects to play another ball from the tee and accept the one stroke penalty. This being done to save duty, the second shot is much better than the first one. After making it, the caddy discovers the first ball is not out of bounds. What is the proper procedure?

If after making a second shot it is discovered the ball first driven is not out of bounds, it shall continue in play without any penalty to the player for having made the second shot.

Player on reaching his ball discovers that it is not out of bounds as he believed. However, the lie of the ball is such that in order to play it the player must swing out of bounds. Is that permissible?
If the ball is lying within bounds, a player has a perfect right to stand out of bounds in order to be in a better position to play the ball. There is no penalty for so doing.

Leading Umpires Favor Plan To Form Association

By NEA Service
New York, May 7.—Umpires from the majors and leading minor

in New York. As a matter of fact in an effort to keep the American League out of the big city, the National League club had an option on practically every site available for a ball park.

"The American League park in those days was built on practically a foundation of stone. Often the light layer of soil that covered the infield would wear through and disclose the rock base.

"Never did I think I would umpire before 75,000 people. The crowd at the opening game is certainly a great tribute to the fondness of the American public for the national pastime."

OIL ENGINES FOR POWER WILL EFFECT SAVING

(Continued from Page 1)

effect this equipment the above company proposes to install one 200 HP. oil engine unit with complete generating equipment and furnish current to these motors in daily service while the reserve units will be connected to our City Power Plant as well as the auxiliary gasoline engines, in this way providing three sources of power to the plant. However, the oil engine generating unit will be the main power factor and will be used in daily service for pumping water. The above company has made their claim to the effect that with this 200HP Oil unit they can put current on the switchboard and through the pumping units at a fuel and oil cost of \$8.00 per seven hours. This will mean that the yearly cost of pumping water with this unit will be approximately \$3,000.00. They also claim that no additional power labor will be necessary for the operation of these units, as the caretakers at the treating plant can easily take care of any engineering necessary.

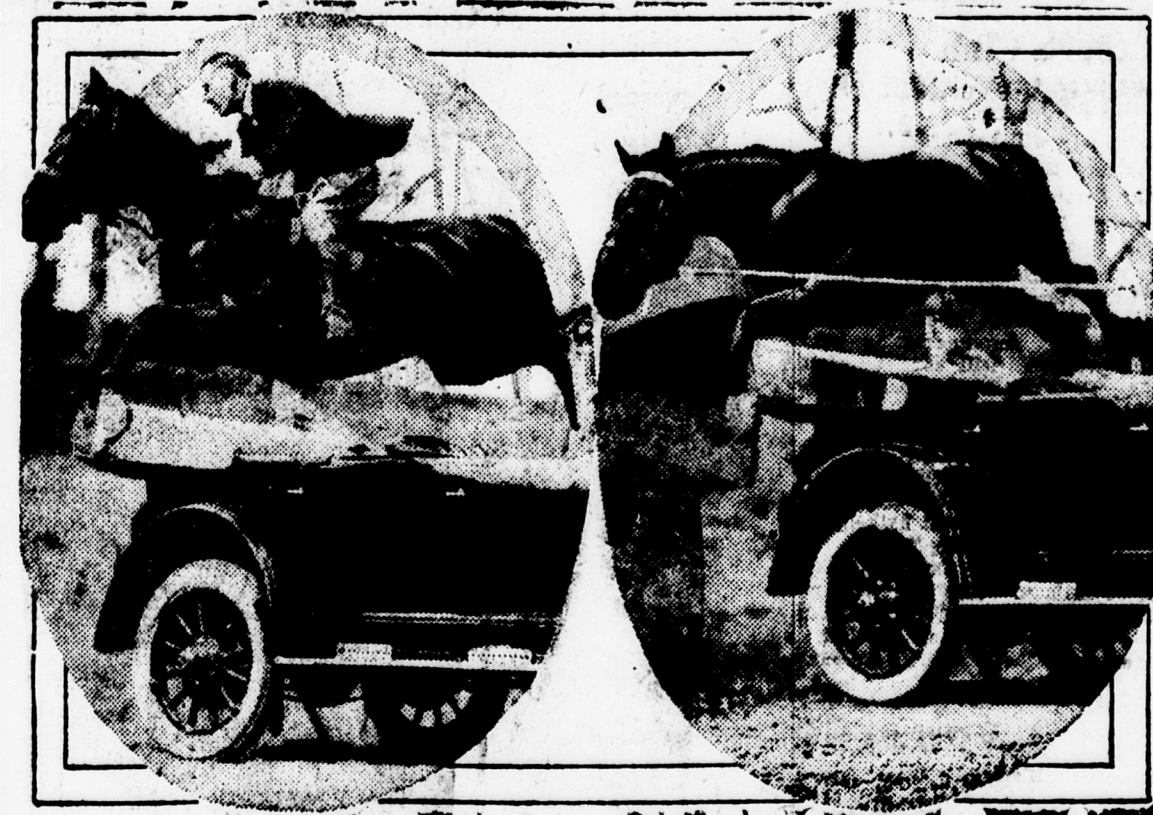

Another proposal has been made in the way of offering one 300 Horse power oil engine generating unit with the intention of furnishing current for the motors at the plant in addition to the lighting of the city white way. The readers will understand that the City owns at the present time, the WHITE WAY system and for the past year or so has been handicapped on account of the rates and has not been able to maintain the full daylight service. You will also realize that the machinery at the plant being installed and the labor taking care of it would work in very nicely for the City to furnish the lighting for their own WHITE WAY. The above company estimate the cost of operating this 300 Horse power unit, furnishing power for the treating plant and the lighting of the white way at a yearly cost of \$5,100.00. This would effect a saving to the city of both of the projects, of approximately \$4,000.00 per year.

Local Saving
To satisfy the readers that these

estimates have not been exaggerated, we wish to state that a local industry in our home city is now using one of these units of 100 Horse power which less than a year ago replaced an electric motor which was getting the benefit of the above rates mentioned and that as the result of the change in power this firm has reduced their monthly operating cost from about \$1,600.00 to about \$350.00 with the output of their plant varying but a trifle. The city commission has been furnished with a number of testimonial letters received from other cities showing what enormous savings have been made when changing from either the electric power or steam to the oil engine unit.

As a summary of this article we wish to state that the above Company has estimated the cost of pumping our supply of water with our electric current at approximately \$1.045 per thousand gallons as against \$0.14 per thousand gallons with the oil engine power station.

And He Does It Without His Master's Guidance

Tipperary, one of the sensations of the horse show at Washington, D. C., goes over an auto with his master, Jack Prestage, in the saddle. And then he repeats the feat without a rider's guidance.

estimates have not been exaggerated, we wish to state that a local industry in our home city is now using one of these units of 100 Horse power which less than a year ago replaced an electric motor which was getting the benefit of the above rates mentioned and that as the result of the change in power this firm has reduced their monthly operating cost from about \$1,600.00 to about \$350.00 with the output of their plant varying but a trifle. MARKET NEWS

WHEAT MART
IS BEARISH
AT OPENING

Persistent Liquidation Sales
Are Recorded Early on
Chicago Board

Chicago, May 7.—Persistent liquidation sales by small holders had a bearish effect on the wheat market today during the early dealings. Declines, however, were minimized in view of the fact that Liverpool quotations continued to show relative strength. Smallness of world shipments to Great Britain was reported as a bullish factor at Liverpool. Chicago opening prices, which varied from 3 cents decline to 3 cents advance, with July \$1.16 1/2 to \$1.17, and September \$1.17 1/2 to \$1.18, was followed by slight gains in some cases and then by a setback all around to well below Saturday's finish.

CHICAGO LIVESTOCK.
Chicago, May 7.—Hog receipts, 61,000. Slow, uneven, 15 to 25 cents lower. Top, \$8.15.
Cattle receipts, 10,000. Active, beef steers, stockers and feeders, strong to 15 cents higher. Beef, steers mostly 10 to 15 cents up. Early top, \$10.25. Shee stock strong to 25 cents higher. Holding lower on veal calves; other classes about steady.
Sheep receipts, 15,000. Generally steady to strong. Few early sales of lambs, \$12.85. Capped 120-pound ewe \$8.

ST. PAUL LIVESTOCK.
St. Paul, May 7.—Cattle receipts, 2,700. Market generally steady. Common to good beef steers, \$6.50 to \$7.00. Butcher cows and heifers, \$4.50 to \$5.00. Canners and cutters, \$2.75

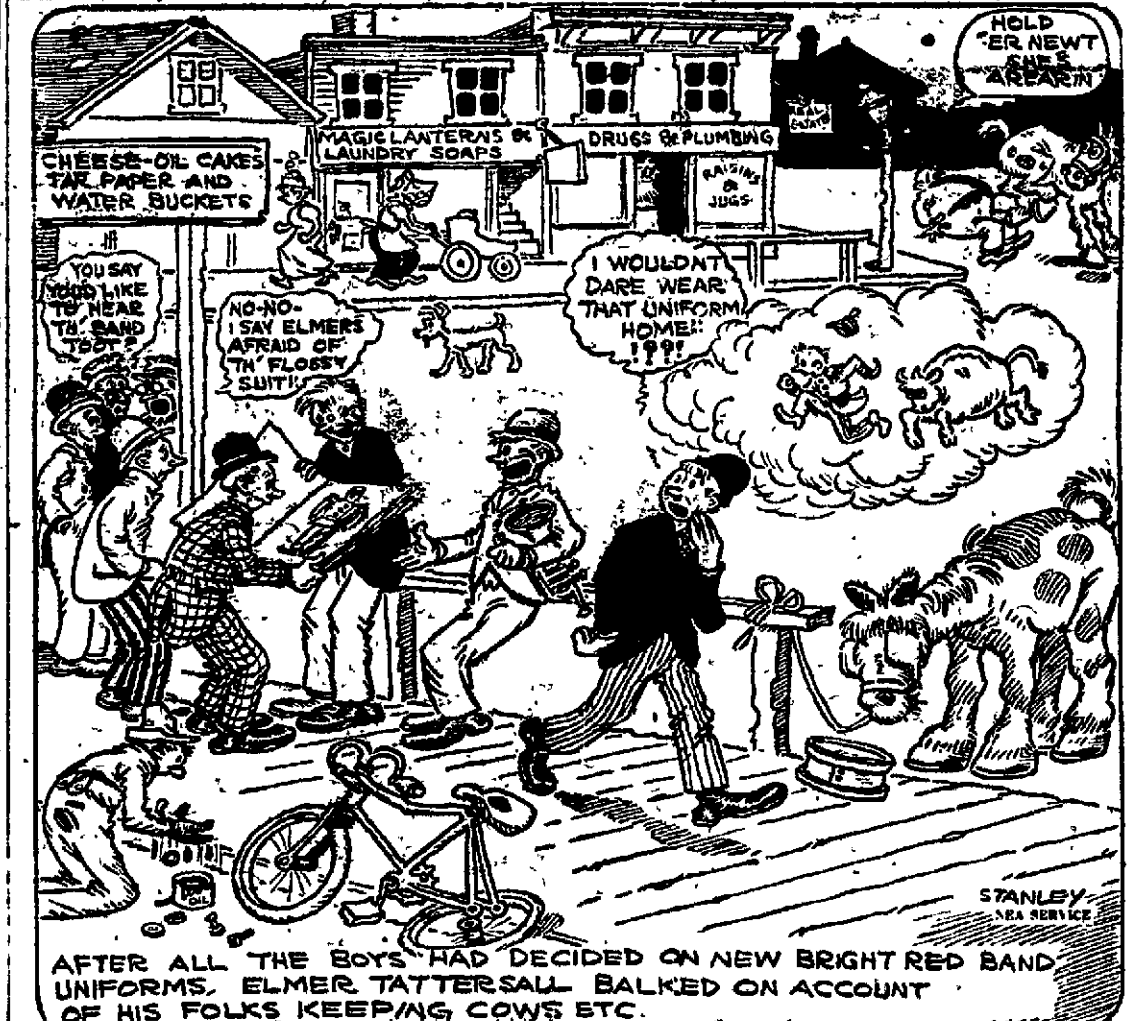

NEW STARS

Look, like strange new stars have set themselves above the national capital. That's due to the position of the cameraman when he photographed the decorations on Pennsylvania Avenue, placed there in honor of the Shrine convention in Washington.

JUDGE UPHELD
IN HIGH COURT

The first decision of Judge Fred Janowski of the Fourth Judicial District, to be taken to the supreme court, was affirmed in a decision handed down today. Parties involved were F. A. Calkins, plaintiff and respondent; O. C. Stevens, defendant; Matt Schneider and W. F. Mahowald, guarantors, and A. Auerbach, intervenor and appellant. Justice Brown, writing the opinion, held the evidence sufficient for finding that the mortgage had been sold to the sale of certain property by the mortgagee and by so doing waived the lien.

NOTICE OF SALE.
Notice is hereby given, that by virtue of a judgment and decree in foreclosure rendered and given by the District Court of the Fourth Judicial District, in and for the County of Burleigh, North Dakota, and entered and docketed in the office of the clerk of said court on the 26th day of April, 1923, in an action wherein The Fidelity Mutual Life Insurance company, a corporation of Philadelphia, Pennsylvania, is plaintiff, and Albert Josephson, Selma Josephson, the Farmers State Bank of Bismarck, North Dakota, a corporation, the Wing Mercantile company, a corporation, Burleigh County State Bank of Wing, North Dakota, a corporation, Burleigh County, North Dakota, a corporation, and Mandan Mercantile company, a corporation, are defendants, in favor of said plaintiff and against said defendants, Albert Josephson, and Selma Josephson, the sum of one hundred and twelve dollars and fifty-five (\$125.55) cents, which judgment and decree, among other things, directs the sale by me of the real estate and premises hereinafter described, in satisfaction of said judgment, with interest thereon and the costs and expenses of such sale, or so much thereof as the proceeds of said sale apply to the satisfaction of said judgment and by virtue of a writ to me issued out of the office of the clerk of said court, under the seal thereof, directing me to sell the said property, pursuant to said judgment and decree.

I, Albin Hedstrom, Sheriff of Burleigh County, North Dakota, and the person appointed by said court to make and sell, will sell the herein after described real property to the highest bidder for cash at public auction at the front door of the courthouse in the City of Bismarck, in the County of Burleigh and State of North Dakota, on the 6th day of June, 1923, at the hour of two o'clock in the afternoon of said day, to satisfy said judgment with interest and costs thereon, and the costs and expenses of such sale, or so much thereof as the proceeds of said sale apply to the satisfaction of said judgment and by virtue of a writ to me issued out of the office of the clerk of said court, under the seal thereof, directing me to sell the said property, pursuant to said judgment and decree.

The South Half of the Northeast Quarter (SE 1/4 of NE 1/4) of the North-east Quarter (NW 1/4 of NE 1/4) and the South-east Quarter of the Northwest Quarter (SE 1/4 of NW 1/4) of Section Twenty-two (22), in Township One Hundred Forty-two (142) North, Range Seventy-six (76), West of the Fifth Principal Meridian, containing 160 acres, more or less.

Dated this 4th day of April, 1923.

Sheriff of Burleigh County, N. D.
PIERCE, TENNESON, CUPLER
& STAMBAUGH.

JUDGE UPHELD IN HIGH COURT

The first decision of Judge Fred Jamison of the Fourth Judicial District, to be taken to the supreme court, was affirmed in a decision handed down today. Parties involved were F. A. Calkins, plaintiff and respondent; O. C. Stevens, defendant; Matt Schneider and W. F. Mahowald, garnishees, and A. Auerbach, intervenor and appellant. Justice Brainerd, writing the opinion, held the evidence sufficient for finding that the mortgage had been assigned to the sale of certain property by the mortgagee and by so doing waived the lien.

NOTICE OF SALE.

Notice is hereby Given, That by virtue of a judgment and decree in foreclosure rendered and given by the District Court of the Fourth Judicial District in and for the County of Burleigh and State of North Dakota, and entered and docketed in the office of the clerk of said court on the 28th day of April, 1923, in an action wherein The Fidelity Mutual Life Insurance Company, a corporation of Philadelphia, Pennsylvania, is plaintiff, and Albert Josephson, Selma Josephson, the Farmers State Bank of Wing, North Dakota, a corporation, the Wing Mercantile Company, a corporation, Burleigh County State Bank of Wing, North Dakota, a corporation, Burleigh County, North Dakota, a municipal corporation, and Maudan Mercantile Company, a corporation, are defendants, in favor of said plaintiff and against said defendants, Albert Josephson, and Selma Josephson, for the sum of nineteen hundred twelve dollars and fifty cents (\$19,125.00), with judgment and decree, among other things, directs the sale by me of the real property hereinafter described, to satisfy the amount of said judgment, with interest thereon and the costs and expenses of such sale, or so much thereof as the proceeds of said sale applicable thereto will satisfy and by virtue of a writ to me issued out of the office of the clerk of said court, under the seal thereof, directing me to sell said real property, pursuant to said judgment and decree.

I, Alvin Hedstrom, sheriff of Burleigh County, North Dakota, and the person appointed by said court to make said sale, will sell the herein after described real property to the highest bidder for cash at public auction at the front door of the court house, in the City of Bismarck, in the County of Burleigh and State of North Dakota, on the 5th day of June, 1923, at the hour of two o'clock in the afternoon of said day, to satisfy said judgment, with interest, costs thereof, and the costs and expenses of such sale, or so much thereof as the proceeds of such sale applicable thereto will satisfy; the premises to be sold as aforesaid, pursuant to said judgment and decree, and to said writ and to this notice, are situated in the County of Burleigh and State of North Dakota, and are described as follows, to-wit:

The South Half of the Northeast Quarter (SE 1/4) of NE 1/4, the Northwest Quarter of the Northeast Quarter (NW 1/4 of NE 1/4), and the South-east Quarter of the Northwest Quarter (SE 1/4 of NW 1/4) of Section Twenty-two (22), in Township One North, Range Forty-two (42) North, of Range Seventy-six (76), West of the Fifth Principal Meridian, containing 160 acres, more or less.

Dated this 30th day of April, 1923.
ALVIN HEDSTROM,
Sheriff of Burleigh County, N. D.
PIERCE, TENNESON, CUPLER
& STAMBAUGH,
Attorneys for Plaintiff,
 Fargo, North Dakota.

SPORTS

BIG LEAGUES THRILLED BY CLOSE RACES

Teams Are Well Bunched After 19 Days of Playing Base-ball Schedule

Chicago, May 7.—During the first week of play the races in both major baseball leagues have disclosed "close" competition all down the line. In most seasons, there are only four places in the American League when play started today, the first was in first, two in second, one in third and four tied for fourth and three tied for third in the National League.

So despite the loss to the Philadelphia Athletics, "the sensation team of the season" before 50,000 persons, the New York Yankees managed to start on a mad trip in first place as both Detroit and Cleveland lost. By defeating Boston 4 to 1, Washington became level with the Red Sox and enabled Chicago, which won its third straight from Detroit, 4 to 5, and St. Louis, which won from Cleveland 5 to 4, to go into a four-way tie for fourth place.

Chicago and Pittsburgh both lost ground in the National League by losing while New York and Boston were idle. Through its victory over the Cubs, 16 to 4, St. Louis went into a tie for third place with Pittsburgh, which lost to Cincinnati, 8 to 7. Brooklyn made a motion toward getting out of the cellar by downing Philadelphia, 7 to 1.

Brooklyn's leading major league pitcher, Walter Johnson, made two great wins, bringing his total to four this season and Charlie Grimm pitched his first shut out, keeping his consecutive record for the season at 11. He now has hit in the 19 game played this season.

How Tommy Armour, the Golfer, Hit Homer At Polo Grounds

Tommy Armour

BY BILLY EVANS.
New York, May 7.—Tommy Armour, one of Scotland's best golfers, now located in this country, is an enthusiastic baseball fan.

For several years, Armour has spent much of his time at the Westchester-Biltmore club, New York. When golfing permits, Armour has himself to the Polo Grounds.

Carl Mays, star pitcher of the New York Yankees, is a personal friend of Armour. Incidentally, Carl made from being some pitcher is a bit of a golfer.

In golf, Armour is known as one of the longest hitters in the game. He takes a healthy cut at the little white ball and gets Babe Ruth distance to his drives.

Thought It Easy.
While Armour has never played baseball, he had a wild idea that it was no great task to hit the ball as delivered by big league pitchers. One day he confided his belief to Mays, who invited him out to the Polo Grounds to make good his opinion.

Mays did the pitching, Armour the batting and a number of the Yankee players who had been let in on the secret formed the gallery. From

At this point we will let Armour tell the story:
"I picked up a bat suited to me after testing about 50. In the meantime Mays had been warming up. I stepped into the batter's box. While my knowledge of the art of hitting a baseball is very limited, I had made up my mind that I was going to take a healthy swing. That I had decided was the best system after having watched Babe Ruth.

"Soaked a 'Homer.'
"As Mays delivered the ball I hit the ball late. In golf they would say I sliced it. But that doesn't matter. I hit the ball hard and it dropped into the right field stands, a sure enough home run in a regular game.

"Then the pang started to Josh Mays. But later I was their victim. I have since decided that Mays didn't put much stuff on that first ball. He threw at least 25 more and I didn't even make a foul during the rest of the test. That decided me that hitting a golf ball is much softer than hitting a baseball."

A lot of baseball players who can hit the old ball, but have a terrible time connecting with a golf ball, will take issue with Armour on that point.

Kinks-o' the Links

by "PRO"

Player gets off a rather poor tee shot and feels that his ball has gone out-of-bounds. He elects to play another ball from the tee and except the one stroke penalty. This being done to save delay. The second shot is much better than the first one. After making it, the caddy discovers the first ball is not out of bounds. What is the proper procedure?

If after making a second shot it is discovered the ball first driven is not out of bounds, it shall continue in play without any penalty to the player for having made the second shot.

Player on reaching his ball discovers that it is not out of bounds, as he believed. However, the lie of the ball is such that in order to play it, the player must swing out of bounds. Is that permissible?

If the ball is lying within bounds, a player has a perfect right to stand out of bounds in order to be in a better position to play the ball. There is no penalty for so doing.

Leading Umpires Favor Plan To Form Association

By NEA Service
New York, May 7.—Umpires from the majors and leading minor

in New York. As a matter of fact in an effort to keep the American League out of the big city, the National League club had an option on practically every site available for a ball park.

"The American League park in those days was built on practically a foundation of stone. Often the light layer of soil that covered the infield would wear through and disclose the rock base.

"Never did I think I would umpire before 75,000 people. The crowd at the opening game is certainly a great tribute to the fondness of the American public for the national pastime."

OIL ENGINES FOR POWER WILL EFFECT SAVING

Continued from Page 11
effect this equipment the above company proposes to install one 200 HP. oil engine unit with complete generating equipment and furnish current to these motors in daily service while the reserve units will be connected to our City Power Plant as well as the auxiliary gasoline engines, in this way providing three sources of power to the plant. However, the oil engine generating unit will be the main power factor and will be used in daily service for pumping water. The above Company has made their claim to the effect that with this 200HP Oil unit they can put current on the switch-board and through the pumping units at a fuel and oil cost of \$8.00 per seven hours. This will mean that the yearly cost of pumping water with this unit will be approximately \$3,000.00. They also claim that no additional power labor will be necessary for the operation of these units, as the caretakers at the treating plant can easily take care of any engineering necessary.

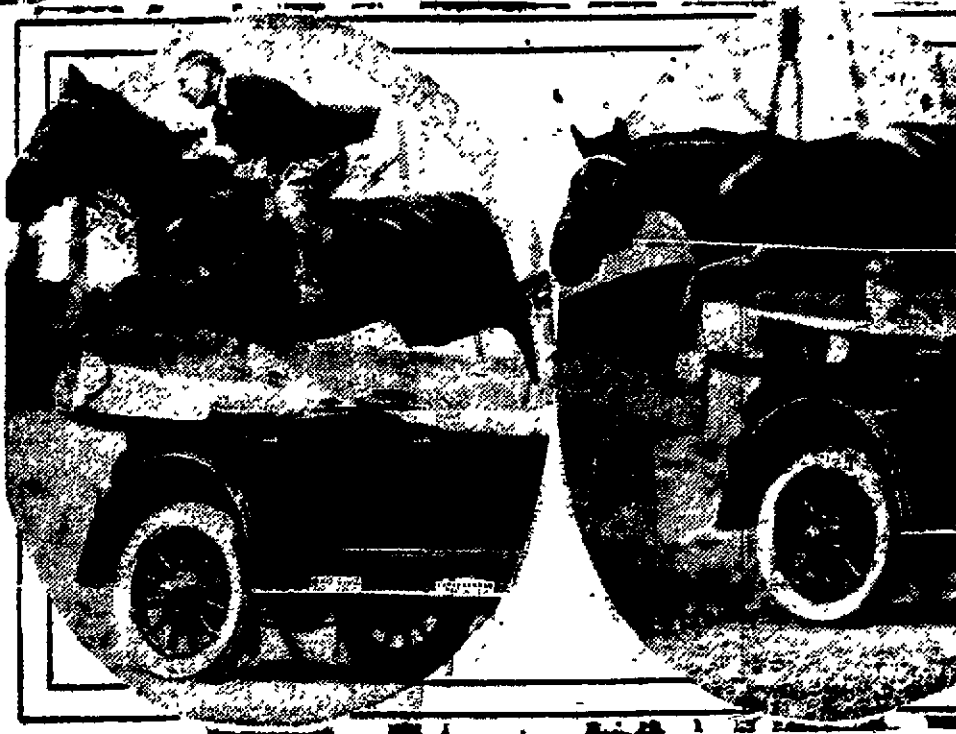

Another proposal has been made in the way of offering one 300 Horse power oil engine generating unit with the intention of furnishing current for the motors at the plant in addition to the lighting of the city white way. The readers will understand that the City owns at the present time, the WHITE WAY system and for the past year or so has been handicapped on account of the rates and has not been able to maintain the full daylight service. You will also realize that the machinery at the plant being installed and the labor taking care of it would work in very nicely for the City to furnish the lighting for their own WHITE WAY. The above company estimate the cost of operating this 300 Horse power unit, furnishing power for the treating plant and the lighting of the white way at a yearly cost of \$5,100.00. This would effect a saving to the city of both of the projects of approximately \$14,000.00 per year.

Local Saving
To satisfy the readers that these

FAT BEEVES SLOW SALE

(By U. S. Bureau of Agricultural Economics and Minnesota Department of Agriculture.)
South St. Paul, Minn., May 7.—An undercurrent of weakness prevailed in the cattle trade with weak spots developing before the close. Receipts for the week total-

And He Does It Without His Master's Guidance

Tipperary, one of the sensations of the horse show at Washington, D. C., goes over an auto with his master, Jack Prestage, in the saddle. And then he repeats the feat without a rider's guidance.

estimates have not been exaggerated, we wish to state that a local industry in our home city is now using one of these units of 100 Horse power which less than a year ago replaced an electric motor which was getting the benefit of the above rates mentioned and that as the result of the change in power this firm has reduced their monthly operating cost from about \$1,600.00 to about \$250.00 with the output of their plant varying but a trifle. The city commission has been furnished with a number of testimonial letters received from other cities showing what enormous savings have been made when changing from either the electric power or steam to the oil engine unit.

As a summary of this article we wish to state that the above Company has estimated the cost of pumping our supply of water with our electric current at approximately \$0.04 per thousand gallons as against \$0.01 per thousand gallons with the oil engine power station.

Stock and feeder steers brought practically steady prices all week. Bulk of offerings sold from \$6.00 to \$7.50 with strictly choice kinds quotable up to \$8.25. Prices of feeding cows and heifers advanced around 25c. Most of the feeding cows sold at \$3.25 to \$4.25 and most stock heifers \$4.00 to \$5.25 at the close.

Hog receipts continue liberal, this week's run totaling about 59,445 compared with 52,099 last week and 42,564 a year ago. The market was strong on opening days but showed losses of around 25c or more on Thursday and Friday, closing with a net loss of around

NEW IDEA FOR GARAGES URGED BY AUTO MAN

Why not a garage on the lower floors or basements of office buildings and apartment houses? C. J. Nephler, general sales manager of the Oakland Motor Car company believes that this is one of the many things that could be done to help remedy the motor car parking question, particularly in large cities.

He points to the fact that in Akron, O., a large building is being constructed for doctors and dentists with the lower floors designed as garage space for the tenants. This is one of the first steps taken in this direction.

"Both the down-town parking question and the question of garage room for occupants of apartment houses, which have grown tremendously of late years in the larger cities, calls for some solution in the near future," he reasons.

"There is a tendency today to put gymnasiums in large business office buildings to save time and give healthful exercise to the tenants. The parking of automobiles for these tenants is just as serious. In the smaller cities and towns, where spaces in the down-town sections are given over to the parking of motor cars. In the larger cities, the streets for parking are limited and often a motor car owner has to park a mile or more from his place of business.

SOMETIMES IT PAYS

Sometimes it pays to go to a bank and borrow money. Sometimes borrowing money is the wisest and most profitable thing in the world to do.

But bankers never employed the slogan, "It pays to borrow."

Rather, they counsel carefully with a man before they advise him to borrow—for his own safety, as well as their own. They do not promote borrowing as something practically sure of success.

Perhaps that is one reason why bankers have never understood the expression, "It pays to advertise."

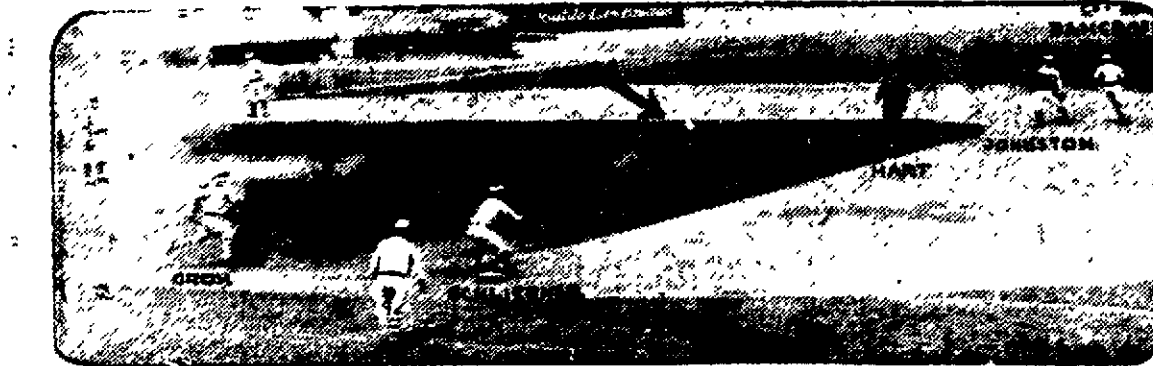

Advertising sometimes pays, just as borrowing sometimes pays, just as investment sometimes pays, just as manufacturing sometimes pays.

Advertising is not the sum of all the economic laws. The man who uses advertising must have a different conception of it than as something that is sure to pay.

That is what advertising agencies are for—to keep men from believing things about advertising that are not true.

Published by The Tribune in co-operation with The American Association of Advertising Agencies.

A BIG STORY IN A SMALL PICTURE

The camera doesn't often catch a double play as clearly as this. After Bancroft, of the Giants, is forced at second, Johnston, of Brooklyn, shoots the ball to Schliefer, first baseman, ahead of Grob and Umpire Hart waves both runners out. Note the ball in the air.

Others Made — League
Convention Urged

A movement to launch a new Non-partisan league daily newspaper, probably in Fargo, is being headed by Senator Lynn J. Frazier. His plan is to obtain 15,000 subscriptions at \$5 a year and others to pay an additional \$5 membership entitling them to voice in control of the paper, it being the idea of the Senator that such a daily can be published one year without depending on advertising.

At the same time "The Progressive," the weekly launched by John Andrews, issues 15,000 copies and is making a strong bid for financial support for leagues.

The Courier-News sale still echoes with resounding blows in various league weekly papers. Most of them still continue to denounce it, although the Bismarck league weekly changed its position from one week to the next after Mr. Townley's visit and now defends the Courier-News sale.

Drive Continues.

The drive on leaders of the league in the past continues. Practically every league who has had a ruling voice either has gone down politically under attacks or is now being attacked. Seth Richardson, United States District Attorney, is included in jibes in "The Progressive" with a telegram intended to convey the idea that Richardson sought to line up for Senator McCumber in hope of getting the district attorneyship. The Andrews' paper declares the leagues have endorsed P. B. Garberg of Hettinger.

Under the headline "Senator Lynn J. Frazier fell for gang trickery" the Andrews' paper also devotes much time to the senator's position. Senator Frazier had been conducting a subscription campaign for the Courier-News shortly before the paper was sold.

W. J. Church, chairman of the league state executive committee, who was called upon to resign by the Tidende, Norwegian paper published in Fargo and supporting the league, is criticized in the Andrews' paper, because Chairman Church said he was too busy seeing to call a meeting of the state executive committee of the league. Senator Church, it is understood, has lost several thousand dollars in various league enterprises.

Convention Wanted.

However, "The Progressive" defends the state committee which the Tidende wants to quit. It believes Senator Church would handle the organization affairs honestly although "for a while he had his ear a little too close to the Lemkes and the so-called 'leaders'."

William Lemke is very bitterly assailed in the Andrews' paper and Townley again comes in for criticism with F. B. Wood and others.

The Williams County Farmers Press, which has bitterly criticized Townley for the Courier-News sale, wants a league convention to be called during the summer.

John Bloom, former business manager of the Courier-News, is understood to be associated with Mr. Frazier in boosting the proposed venture for a new daily.

The plan for financing and management of the proposed paper is outlined by Senator Frazier in his letters as follows:

"Every member of the league and every one in sympathy with the farm-labor movement who can possibly do so is asked to subscribe for the paper for one year at five dollars per year."

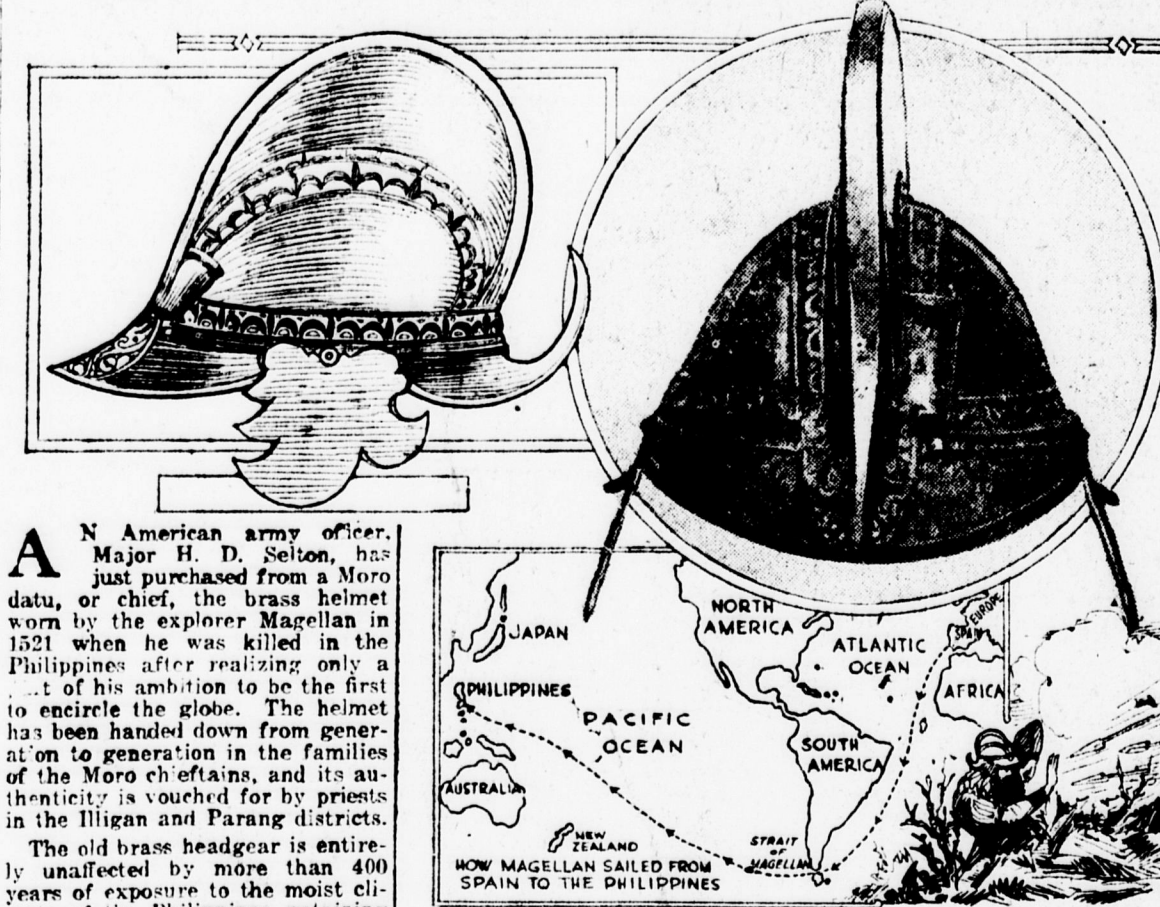

"Those who are in a position to do so are asked to subscribe an additional \$5 or more for which they will receive membership certificates (one for each \$5) which will entitle them as long as they are paid up subscribers to the paper to have a voice in the managing control and ownership of the paper, and no sale or lease of the property shall be made without a referendum vote of the holders of membership certificates, and they shall elect a board of directors and determine the disposition of the ownership and assets."

The new daily would be handled by a board of three directors, according to the plan proposed in Mr. Frazier's letter. The first board would be named on a revolving basis, and thereafter the directors would be elected for a term of six years.

Appeal for Funds.
Senator Frazier further states that "I will receive your money for subscriptions and the purchase of equipment, and I will hold it until it is ascertained whether sufficient response is received to justify going ahead, and if sufficient response is received to warrant the venture your money will be returned to you less the cost of getting out these letters and other expense incident to this work, which in no case will exceed 5 per cent."

In discussing the prospects of success for the proposed daily, Mr. Frazier says that if 15,000 subscribers

Brass Helmet of Explorer Magellan, 400 Years Old, Found in Philippines

A New American army officer, Major H. D. Selton, has just purchased from a Moro datu, or chief, the brass helmet worn by the explorer Magellan in 1521 when he was killed in the Philippines after realizing only a part of his ambition to be the first to encircle the globe. The helmet has been handed down from generation to generation in the families of the Moro chieftains, and its authenticity is vouched for by priests in the Illigan and Parang districts.

The old brass headgear is entirely unaffected by more than 400 years of exposure to the moist climate of the Philippines, retaining its original smooth and polished surface. The tooling and ornamentation is still intact, as is even the frail brass hinges used to fasten the helmet under the chin of the doughty old warrior.

Soldier of fortune and adventurous mariner, Magellan was spurred on by the success of Columbus, de Gama and the other heroes of that sturdy age of discovery. A Portuguese, he enlisted under the crimson and gold banner of Spain, and

set out in 1519 to reach the Indies by the long voyage around South America. Coasting to the south of South America he discovered the dark and forbidding Straits which now bear his name. Passing through to the Pacific he sailed northwestward until he reached the Philippines. Here, during a battle with the natives, he was wounded and died. After a voyage far surpassing even the heroic accomplish-

FRAZIER AND ANDREWS VIE FOR SUPPORT

Senator Wants New Newspaper While John Andrews Asks Support of Own

LABOR MEET OPENS

Grand Forks, May 7.—Opposition to the one big union idea and to the establishment of a system of branch banks in the United States was voiced by E. G. Hall, of Minneapolis, president of the Minnesota Federation of Labor, who was the chief speaker at the opening session of the North Dakota Federation of Labor convention now being held in Grand Forks. If the branch banking system is established two banks in the Twin Cities would dominate the entire Northwest, he said.

Conflicting resolutions in regard to the labor newspapers situated in North Dakota were before the resolutions committee of the convention. One resolution favored by Senator Lynn J. Frazier calls for the establishment of a new farmer-labor paper to take the place of the Fargo Courier-News recently sold, while another urged by John Andrews, former editor of the Courier-News, would give the support of the federation to a new weekly which he has established.

Formation of a political organization in the interests of labor but not affiliated with the state's federation

BOYS' BAND BIG SUCCESS

Father Flanagan and Boys
Make Big Hit in Valley City

Fr. Flanagan and his twenty boys who appear today at the Auditorium at a matinee performance at 4 o'clock for the school children and again in the evening at a performance for adults come here with high recommendation as entertainers.

The Valley City Times Record says in speaking of the boys who played there Saturday that "Father Flanagan and his boys entertained a packed house at the College Auditorium last evening. The boys are certainly royal entertainers and held the attention of the entire house."

Reports from other places where the group has appeared indicate that they proved to be equally successful entertainers.

The boys give a matinee performance for the children of the city in order to accommodate the large crowd of adults that flock to hear them in their evening performances.

WRITES HISTORY OF NO. DAKOTA

A history of North Dakota in a brief comprehensive form covering the events from the early explorations to the present time is soon to appear from the press. This book

ELKS MINSTREL SHOW SUCCESS

The Elks' minstrel show, here Friday and Saturday nights, was a success in every way. Alex Rosen, exalted ruler of the lodge, said today. Mr. Rosen particularly praised the Elks committees which did much work on the show, the band, and thanked the many people who co-operated in the presentation.

The show netted about \$800, which is about the same as last year.

Hazen Farmer Dies After Short Illness

Frederick Uhl of Hazen, 62, well known farmer of that vicinity, died Sunday afternoon at a local hospital suffering from a cerebral hemorrhage. He had been ill only a week.

The deceased is survived by a widow and children. Funeral services will probably be held at Hazen Wednesday.

NOTICE

I will not be responsible for any bills of Christina A. Fredrickson from this date on.
Signed, Wm. Fredrickson.

Preventable Fire Waste in America Now Half Billion Dollars Annually

Education On Fire Prevention
Urgently Needed to Cut Down
Appalling Waste, says Protective Association.

STATISTICS for 1921 show a national fire loss of \$495,406,012. Incomplete statistics for last year indicate that this sum is mounting. In 1918 American fire losses amounted to \$233,878,876. Fire insurance experts say that the greater part of this staggering loss is due to lack of fire prevention knowledge, carelessness, criminality and faulty construction of buildings. They say there is urgent need of educating the public to be less careless, urgent need for the passage of laws and ordinances compelling the construction of buildings that cannot burn, and urgent need for swift and certain punishment for arson.

The National Fire Protective Association recently drafted a building code which requires steel, stone or concrete construction and fire resistant roof coverings. Inflammable roofs loom large in the fire loss statistics for such a reason as resistance to the flames, but does offer the possibility, when the sparks fly, of changing a small fire into a wide conflagration.

A recent compilation of statistics by a Kansas City newspaper based upon Kansas City fire department records shows that in 1922 in Kansas City there were 924 roof fires in which buildings were totally destroyed or appreciably damaged. This total does not include the number of buildings destroyed or damaged by flames that spread from the original fire. During January and February of this year there were 464 roof fires in Kansas City, a number of which spread to other buildings. All of these buildings had inflammable roof coverings. During the whole of this period of fourteen months not a single non-inflammable roof in Kansas City caught fire. Chief Alex Henderson of the

America Kindles the World's Biggest Bonfire

Kansas City fire department says, in this connection: "If all the homes of Kansas City were roofed with asphalt shingles it would save the fire department over 750 runs a year."

A classification of fire causes made by the National Board of Fire Underwriters in 1921 shows that in that year "sparks on roofs" ranked seventh among 21 different causes. In 1918 the total loss by fire caused by sparks alone was \$6,708,087. By 1921 the figure had grown to \$11,448,220. With a dry hot summer the loss this year from sparks may reach \$15,000,000. Illinois, Indiana, and Missouri have established the worst records with losses by fire

due to sparks in 1921 of \$713,763, \$69,475 and \$65,738 respectively. Roof fires caused by defective chimneys and flues ranked third in the classification for 1921, the loss from that source amounting to \$14,801,561 compared to \$11,985,792 in 1918. New York showed the heaviest loss in this classification with \$11,523,444, while Illinois, with \$790,634, came second and Pennsylvania, with \$718,292 ranked third. The total loss to the country due to inflammable roof fires, all sources, in 1921 was \$26,289,901, more than enough to build 876 miles of hard-surfaced automobile roads or to maintain the 286 departments of 105 cities.

This is Home Garage Week

What's missing in your Home Garage? Check up!

If "the lady of the house" is to be judged by the condition of her kitchen, surely her husband can be judged by the condition of his home garage.

How about yours? Is your tool equipment complete? Are your supplies adequate? Is everything in apple-pie order?

Complete Equipment—
Complete Supplies—

Secured NOW!

—may save you hours of
annoyance and dollars
in time and repairs.

is the most important single supply you can put in your Home Garage.

How to buy for
your Home Garage

During this week of May 7th to 12th, dealers all over the country are giving the home garage owner special attention. They have put

in ample stocks of all grades of Gargoyl Mobiloil in the larger containers.

Gargoyl Mobiloil comes in 1-gallon and 5-gallon cans and 15-, 30-, and 55-gallon steel drums, equipped with a convenient faucet. The 5-gallon can and 15-gallon drum will undoubtedly be very popular during Home Garage Week. The oil is cheaper than when bought in the 1-gallon can.

Again, every motorist knows that his crankcase should be drained regularly and an entire fresh supply of oil put in. This is best done when the engine is warm. And for this purpose also, you should at all times have a good supply of Gargoyl Mobiloil in your home garage.

An adequate supply of Gargoyl Mobiloil

At the same time that you buy your Gargoyl Mobiloil, check over your tool and emergency equipment. Most of your summer needs can be anticipated at this one time.

VACUUM OIL COMPANY

will be taken up by delegates to the convention of the North Dakota Federation of Labor Tuesday following adjournment of the convention proper which is now in session.

The organization probably will be a revival of the Working People's Nonpartisan alliance formed in Minnesota in 1919, but which has been inactive for several years. Arrangements for the meeting Tuesday were made at the convention here today.

FIRE TRUCK JUST MISSES AUTOMOBILE

Motorists Following Truck Are
To Be Prosecuted, Com-
missioner Says

Three near accidents in the last two runs of the city fire department brought today from Police and Fire Commissioner Henzler a severe warning to motorists who fail to recognize the fire truck when it is called.

Not only do persons coming from cross streets fail to respect the siren of the fire truck, but motorists following the truck and driving along side of it are a constant menace, he said.

Yesterday the department was called to Third ward on a false alarm, someone burning rubbish on a vacant lot. At one cross street the fire truck missed an automobile by a hair's breadth.

"There is a city ordinance covering this," said Mr. Henzler, "and we are going to enforce it. If automo-

THE HIGH SIGN

Mlle. Hasontia, Oriental dancer, salutes her idol in her room at a New York hotel with the "Javanese high sign." Such a ceremony is as beneficial as the "daily dozen." Try it, girls.

NOTICE
The practice of automobiles and trucks following the fire truck and Fire Chief's car to fires, interfering with the fire apparatus getting to the fire as quickly as possible and endangering the lives of the firemen, must be discontinued at once. The traffic ordinance provides that "upon the approach of any fire apparatus, police patrol or ambulance, every vehicle shall draw up as near as possible to the right curb of the street and remain at a standstill until such apparatus, patrol or ambulance shall have passed. No vehicle following a fire apparatus shall approach closer than three hundred feet to the fire apparatus or to the fire." The penalty for

Piles

are usually due to straining when constipated. Nujol being a lubricant keeps the food waste soft and therefore prevents straining. Doctors prescribe Nujol because it not only soothes the suffering of piles but relieves the irritation, brings comfort and helps to remove them.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

Nujol
A LUBRICANT—NOT A LAXATIVE

violation of this ordinance is a maximum fine of \$100.00 or sixty (60) days in jail. The Fire Chief and Chief of Police have been instructed to arrest any person violating the above provisions.
